Description

The Supplier provides a combination of group level reported Environmental, Social, and Governance (ESG) data, which includes raw and disaggregated ESG data that are validated by links to source documents. These data are furnished without mixing in any estimation or analytics and allows for unbiased interpretations of said data from a regulatory context, which is a key design principle of the ESG Dashboard. The ESG Package also provide access to Refinitiv's proprietary FTSE Russell Green Revenues Classification System – which is used by investors and market participants globally to measure exposure to the green economy and the risks associated with transitioning.
