Belfast Health and Social Care Trust

II.2.4) Description of the procurement

Procurement of HLA Antibody Detection & Identification Services

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

No other reasonable alternative exists for this procurement that is critical for patient care and service delivery. This procurement is essential in supporting the long-term/optimum graft survival of renal transplant patients. A tender process that was delayed due to Covid19 commenced in September 2021, tender reference 3786726 and is currently at evaluation stage. This procurement is required in the interim period until this tender process has completed. A replacement in the short-term is not a reasonable alternative as it would require extensive and robust validation and verification work in line with laboratory accreditation standards - UKAS ISO15189 that would result in significant disruption and disproportionate technical difficulties that would significantly impact on patient safety and the Trusts ability to deliver services.

The absence of competition is not a result of the artificial narrowing of the parameters of the procurement. The wider market has been consulted as part of the tender that is in progress HLA Typing & Antibody Ref: 3786726. BHSCCT will exit this procurement and transition to the new contract at the earliest opportunity.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
