## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Logistics planning tool (replacement for rostering and mutual aid systems)

Reference number

C5240

#### **II.1.2) Main CPV code**

- 72000000 - IT services: consulting, software development, Internet and support

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

The Logistics Planning Tool (LPT) project's vision is to deliver strategic resourcing tool(s) for incident management, including both people and equipment. The project will ensure our tools and ways of working can support logistical planning and coordination so that the right resources can be planned, requested and directed to the right locations in advance of when they're needed. The Incident Management strategy recognises that IT systems are key to support the efficient use of resources, clear decision-making and effective communication that are essential to deliver the future service.

#### **II.1.5) Estimated total value**

Value excluding VAT: £9,000,000

#### **II.1.6) Information about lots**

This contract is divided into lots: No

### **II.2) Description**

#### **II.2.3) Place of performance**

NUTS codes

- UK - United Kingdom

## II.2.4) Description of the procurement

The overall scope for the Services is for the Supplier to provide the following core Logistics Planning functionality for End Users, including:

- Duty, Standby and Incident Rostering capability;
- Mutual Aid capability (e.g. sharing staff and Equipment Assets between different teams, such as the Buyer's Area Teams) in order to support Incidents;
- creation and maintenance of a Logistics Planning application accessible from standard web browsers on desktop and mobile devices;
- an ability to restrict access to functionality and data based on an End User's Persona, Incident Role and Organisational Unit;
- reporting and notifications to support operational management and alerting of End Users as to necessary actions;
- a capability to ingest and export data via APIs and dataset files;
- self-service configuration and admin functions which allows the Buyer to perform routine maintenance tasks (e.g. adding new categories of Equipment Assets, adding new Incident Roles, or creating new Shift Templates);
- provision of Documentation for training and End User help; and
- IT Service Management (in accordance with ITIL v4) for the Logistics Planning application.

Additionally, the Buyer requires a Logistics Planning application that enables future flexibility in order to extend the use of the Supplier System beyond that of the Buyer to other Defra Group organisations. This may include the implementation of future requirements, including (but not limited to):

- the Supplier must have a product roadmap which includes functionality readily available in the proposed product suite beyond the functionality currently stated in the Contract that the Buyer may wish to implement via the Variation Procedure;
- the Supplier may be required to exchange data and enable interoperability across new data and information systems and services. This could be via file-based interfaces or in near real-time (e.g. by means of an open API, enabling unfettered access to all data wherever it is stored);
- the Supplier may be required to support Rostering of resources including staff, other organisations, services and Equipment Assets for other Defra Group bodies;
- the Supplier may be required to utilise capabilities in the product roadmap that could be used to replace other (aged) Defra Group systems (in whole or in part); and
- the Supplier must propose new ideas, innovations, and service improvements via a bi-annual Continuous Improvement Plan that the Buyer may wish to implement via the Variation Procedure.

### **II.2.5) Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

### **II.2.6) Estimated value**

Value excluding VAT: £9,000,000

### **II.2.7) Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months

120

This contract is subject to renewal

Yes

Description of renewals

The initial contract term shall be 5 years with the potential for 2 + 2 + 1 years in extension periods.

### **II.2.10) Information about variants**

Variants will be accepted: No

### **II.2.11) Information about options**

Options: Yes

Description of options

The initial contract term shall be 5 years with the potential for 2 + 2 + 1 years in extension periods.

### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

---

## **Section III. Legal, economic, financial and technical information**

### **III.1) Conditions for participation**

#### **III.1.2) Economic and financial standing**

Selection criteria as stated in the procurement documents

#### **III.1.3) Technical and professional ability**

Selection criteria as stated in the procurement documents

## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.1) Type of procedure**

Open procedure

#### **IV.1.8) Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: Yes

### **IV.2) Administrative information**

#### **IV.2.2) Time limit for receipt of tenders or requests to participate**

Date

20 January 2023

Local time

12:00pm

#### **IV.2.4) Languages in which tenders or requests to participate may be submitted**

English

#### **IV.2.6) Minimum time frame during which the tenderer must maintain the tender**

Tender must be valid until: 21 July 2023

#### **IV.2.7) Conditions for opening of tenders**

Date

28 November 2022

Local time

12:00pm

---

## Section VI. Complementary information

### VI.1) Information about recurrence

This is a recurrent procurement: Yes

### VI.4) Procedures for review

#### VI.4.1) Review body
