Scope

Reference

C321806

Description

The Trust has been trailing HOCL solution in conjunction with other NHS Trusts, in order to establish baselines for efficacy and efficient cleaning and decontamination at Rampton Hospital, using a stable Hypochlorous Acid based solution.

The Trust has been using a Centrego Flow 40 and 120 Plus system from Centrego Ltd to generate HOCL solution on site - supplied via HOCL Health Ltd being a distributor of this product. This equipment listed on and complies with GB95 Article List under PT01 - Human Hygiene.

Due to the Health and Safety risks of using various chemical alternatives, the Trust wishes to expand the scope of this project with leasing further machines to produce HOCL around key sites at Nottinghamshire Healthcare NHS Foundation Trust.
