Section II: Object

II.1) Title attributed to the contract by the contracting authority/entity:

S&MOCB/9000 - Procurement and Support of Remotely Operated Underwater Vehicle

II.2) Type of contract and location of works, place of delivery or of performance

Supplies

Service category No 1: Maintenance and repair services

NUTS code

- UK - United Kingdom

II.3) Information on framework agreement

The notice involves the establishment of a framework agreement: No

II.4) Short description of nature and scope of works or nature and quantity or value of supplies or services

Following the issue of a PIN 1 on 21st June and PIN 2 on 27th July 2022, DE&S – Salvage and Marine Operations (SALMO) team would like to thank all companies that have expressed an interest in supplying the intended procurement of equipment and support as described below.

This 3rd PIN is to advise Industry of the expected date of release of the contract notice and to a change in requirement.

SALMO originally planned to issue a contract notice for this requirement subject to the agreement of funding within the current financial year 2022/2023. This date for release of the contract notice is now estimated to be in Q2 financial year 2023/2024, with the indicative contract award timeframe estimated to be financial year 2024/2025.

Following further development of the requirements for this capability, the Authority can confirm that there is now a requirement for the system to be procured and supported via a UK prime contractor.

II.5) Common procurement vocabulary (CPV)

- 43135000 - Subsea equipment

II.7) Additional information

The Salvage and Marine Operations (SALMO) Team within the Ministry of Defence (MOD), have a potential requirement procure a deep-water work class Remotely Operating Vehicle and supporting equipment in order to carry out its core salvage activities. The intent is that the ROV should be capable of object manipulation and high-resolution imagery up to a depth of 6000m.

The intended procurement is for at least one deep-water, work class Remotely Operated Vehicle system including the vehicle, launch and recovery system, control, workshop and support containers and is to be readily deployable through standardized freight transport. The intent is also to procure a training and an in-service support solution package for at least one year. SALMO plans to issue a contract notice for this requirement subject to the agreement of funding in Q2 2023/2024. Indicative contract award timeframe would be financial year 2024/2025.

In issuing this Prior Information Notice (PIN) and engaging with the market, neither SALMO nor MoD are committing to carry out any procurement in relation to the information stated in this PIN.

Section VI: Complementary information

VI.1) Information about European Union funds

The contract is related to a project and/or programme financed by European Union funds:
No

VI.2) Additional information

The Contracting Authority intends to use an e-Tendering system in this procurement exercise, please visit www.contracts.mod.uk for full details and to register your interest in this procurement.
