#### **II.2.4) Description of the procurement**

The digital platform must be designed to streamline and enhance the information management of capital construction projects. This technology will integrate various functions and tools to aid project managers, stakeholders, and team members in efficiently executing, monitoring, and completing construction projects. With the growing complexity of construction projects, an electronic EPMO system has become crucial for MAG to ensuring digital data capture & that projects are delivered on time, within budget, and to the desired quality standards.

Core Functions:

Contract Management

Project Planning and Scheduling

Resource Management

Budgeting and Cost Control

Document Management

Risk Management

Quality Control

Performance Monitoring and Reporting
