## **Section II: Object**

### II.1) Scope of the procurement

#### II.1.1) Title

Continuous River Monitoring

Reference number

Continuous River Monitoring

#### II.1.2) Main CPV code

• 71700000 - Monitoring and control services

#### II.1.3) Type of contract

Services

#### II.1.4) Short description

Water companies have a duty under Section 82 of the Environment Act to protect the environment from the effects of discharges from storm overflows and wastewater treatment works. Water companies are required to monitor the quality of water potentially affected by, upstream and downstream, discharges from these assets. This requires the monitoring of the following perameters:

- (a) levels of dissolved oxygen,
- (b) temperature and pH values,
- (c) turbidity,
- (d) levels of ammonia, and
- (e) anything else specified in regulations made by the Secretary of State.

These measuremnts will typically be made in rivers and/or a local measurement kiosk and we would request evidence for the equipment operating in such an environment both during routine operation and under exceptional conditions such as storms. 3rd party validation of sensor monitoring technology would be of interest at this stage.

# **Section VI. Complementary information**

## VI.6) Original notice reference

Notice number: <u>2022/S 000-032621</u>

# **Section VII. Changes**

VII.1) Information to be changed or added

VII.2) Other additional information

Extension has been given until 11th January 2023 @5pm GMT.
