Ministry or any other national or federal authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Viet Nam Offshore Wind Centre of Excellence - Implementation phase

Reference number

prj_1946

II.1.2) Main CPV code

- 75211200 - Foreign economic-aid-related services

II.1.3) Type of contract

Services

II.1.4) Short description

This contract will deliver an implementation phase for a Viet Nam Centre of Excellence for Offshore Wind.

Building on the collaborative partnerships established in the first phase, the delivery partner will develop international and local partnerships further, as well as identifying and securing a sustainable option for the longevity of the centre.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £191,857.14

II.2) Description

II.2.3) Place of performance

NUTS codes

- VN - Vietnam

II.2.4) Description of the procurement

This contract will deliver an implementation phase for a Viet Nam Centre of Excellence for Offshore Wind.

It is intended that this implementation phase will establish an early stage, but fully operational, Centre of Excellence (CoE) with clear structures for ownership, governance, membership, scope of activities and financing arrangements. Although intended to be flexible as the CoE develops, the CoE should encompass core values which align with the collaboration, pace and technical engagement required to deliver progress in scaling up the offshore wind sector. It will establish itself a unique position in the Vietnamese energy landscape to do so, bringing together a diverse range of stakeholders to accelerate progress.

Over-arching objectives for this phase include:

a. Develop plan for implementation considering:

- i. Membership – continue/build additional engagement with Government of Viet Nam, international development partners and UK staff (DESNZ, FCDO, DIT).
- ii. Governance – finalise/agree governance structures and implement them (initial steps taken to identify structures in scoping study).
- iii. Project processes – finalise/instigate processes for defining and delivering activities

under the CoE, including over-arching objectives for each technical area.

iv. Delivery of technical objectives – begin delivery of core set of initial activities under skills & training (likely first priority); capacity building; research, development & demonstration. Scale of support defined following completion/progress in (i)-(iii).

b. Ensure inclusion and engagement on/with UK expertise, research and industry to expose them to the opportunities in the Offshore Wind sector in Viet Nam.

The work will include detailed stakeholder engagement and analysis of the results of that engagement as well as the production of a final report.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: [2023/S 000-020729](#)

Section V. Award of contract

Contract No

con_5204

Title

Viet Nam Offshore Wind Centre of Excellence - Implementation phase

A contract/lot is awarded: Yes

V.2) Award of contract

V.2.1) Date of conclusion of the contract

31 October 2023

V.2.2) Information about tenders

Number of tenders received: 4

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor

Carbon Trust Singapore Pte. Ltd

9 Raffles Place #26-01, Republic Plaza

Republic of Singapore

048619

Country

Singapore

NUTS code

- SG - Singapore

The contractor is an SME

No

V.2.4) Information on value of contract/lot (excluding VAT)

Total value of the contract/lot: £191,857.14

V.2.5) Information about subcontracting

The contract is likely to be subcontracted

Section VI. Complementary information

VI.4) Procedures for review

VI.4.1) Review body

Department for Energy Security and Net Zero
