### **Scope**

### **Description**

The City of London (CoL) is seeking information from the market on DEMS programs, not limited to, iCAV, Body Worn Cameras;

We use multiple DEMS, mainly [evidence.com](#) (Axon) and VideoManager (Motorola), alongside several smaller systems we're currently mapping.

VideoManager is underperforming, so we're relying on [evidence.com](#) for critical functions outside the original Axon agreement. Axon also supplies DIRS and a few BWV units, while Motorola provides most BWV units and ICAV.

Contracts for BWV, ICAV, and DIRS expire within 15 months. Due to the need for integration with DEMS, we aim to procure all in a single package.

DIRS, which expires in Dec 2025, is essential for interview recording, so continuity of this

capability is critical..
