Framework operation description

Short description of the requirement: The primary requirement is to replace outdated Sharp MFDs with modern, sustainable, and cost-effective alternatives that align with the college's strategic goals-specifically improvements in sustainability, print quality, operational efficiency, and a reduction in outsourcing costs. Agilico has been selected due to several key justifications. Firstly, Agilico already has an established relationship with the college and a proven understanding of its operational needs, making them well placed to deliver continuity of service during this transition.
