Scope

Description

MAG Airport Limited (MAG) is initiating an early market engagement to support the

development of its carbon removals strategy. This RFI seeks information on the carbon removals market and the supply and availability of different removal technologies both now and in the future, to ensure that MAG can meet its ambitions of offsetting 50% of its residual emissions with carbon removals by 2030 and 100% by 2038, as well as supporting the wider decarbonisation of aviation and supporting UK nature.
