Contract

## **To perform an MRN conversion as part of the development and implementation of integration with EHCR**

encompass

F03: Contract award notice

Notice identifier: 2022/S 000-034692

Procurement identifier (OCID): ocds-h6vhtk-038797

Published 7 December 2022, 4:40pm

### **Section I: Contracting authority**

#### **I.1) Name and addresses**

encompass

BELFAST

#### **Email**

[encompass.contracts@hscni.net](mailto:encompass.contracts@hscni.net)

#### **Country**

United Kingdom

#### **Region code**

UKN06 - Belfast

#### **Justification for not providing organisation identifier**

Not on any register

## **Internet address(es)**

Main address

<http://hscbusiness.hscni.net>

## **I.4) Type of the contracting authority**

Body governed by public law

## **I.5) Main activity**

Health

---

## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

To perform an MRN conversion as part of the development and implementation of integration with EHCR

#### **II.1.2) Main CPV code**

- 72250000 - System and support services

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

HSC Business Services Organisation intends to enter into an agreement to perform an MRN conversion as part of the development and implementation of integration between the Varian Cancer Management System (ARIA) and the Electronic Health Care Record.

#### **II.1.6) Information about lots**

This contract is divided into lots: No

#### **II.1.7) Total value of the procurement (excluding VAT)**

Value excluding VAT: £10,000

## **II.2) Description**

### **II.2.3) Place of performance**

NUTS codes

- UKN - Northern Ireland

### **II.2.4) Description of the procurement**

Requirement to perform an MRN conversion as part of the development and implementation of integration required between the Varian Cancer Management System (ARIA) and the

Electronic Health and Care Record. Cancer-related appointment scheduling generated in either system is necessary to display in both systems for usability. Additional patient flagging and treatment summary information generated in Varian Aria is also necessary to have in EHCR, so that EHCR has a way of noting which patients are receiving cancer treatment and can direct carers to pertinent treatment details without needing to do manual documentation and updates in multiple systems.

Items included within this are:

- Provision of an extract of patient data which will identify all Radiation Oncology patients who do not have an HCN
- Running the ID re-configuration in Test on the T-Box - this may require several iterations (the T-Box will need to be refreshed with a copy of Production prior to each test)
- Running the ID re-configuration in Production (this will require the Production system to be backed up)
- Implementing the ID re-configuration will need to be performed out of hours

### **II.2.5) Award criteria**

Price

### **II.2.11) Information about options**

Options: No

---

## Section IV. Procedure

### IV.1) Description

#### IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
  - absence of competition for technical reasons

Explanation:

Varian is the single supplier of this software and they provide support of the main system and their bespoke interface engine. This system is highly specialised for the purpose of cancer

treatment delivery and is in use to support cancer services in all five trusts in Northern Ireland.

Only the supplier of the Varian system has the technical expertise to carry out this integration of their own product with the EHCR being implemented in HSCNI. It is not possible to procure this interface development via a framework route.

Alternative options are not appropriate in this instance as Varian is already contracted and deployed across Northern Ireland. Varian is the only cancer treatment management system

in use for this purpose regionally and therefore this DAC is being justified for technical reasons under Regulation 32(2)(b) of the Public Contracts Regulations 2015 as only the supplier of the Varian system has the rights and ability to create the interface with EHCR.

#### IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

### IV.2) Administrative information

#### IV.2.1) Previous publication concerning this procedure

Notice number: [2022/S 000-033194](#)

---

## **Section V. Award of contract**

### **Contract No**

DAC10875

A contract/lot is awarded: Yes

### **V.2) Award of contract**

#### **V.2.1) Date of conclusion of the contract**

7 December 2022

#### **V.2.2) Information about tenders**

Number of tenders received: 1

The contract has been awarded to a group of economic operators: No

#### **V.2.3) Name and address of the contractor**

Varian Medical Systems UK Ltd

Crawley

Country

United Kingdom

NUTS code

- UKJ - South East (England)

Companies House

00558526
