II.1.4) Short description

On behalf of the Board of Trustees of the Tate Gallery, we are looking to appoint a suitably qualified set of consultants to support the transformation of the landscape at the front of Tate Britain Gallery, along Millbank.

The Tate Britain Garden Project will transform the open spaces in front of the gallery, the so-called Millbank entrance, reframing the public approach and formal entrance to Tate Britain with a beautiful, contemporary and welcoming new green space.

The garden will be an open invitation for new audiences of all ages and backgrounds to engage with exceptional plants and garden design, to rest, to play, to meet, to explore works of art, to enjoy food and drink in a beautiful plant-filled setting. We want the garden to be a model of new thinking in urban ecological design, set out with people and nature in mind, reversing the current predominance of hard landscaping, formal barriers and under-used areas in the current garden. We want to open up the spaces, introducing plant species and features that will thrive in the garden and create visual interest year-round.
