Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

On 5 March 2020, DWP published a Prior Information Notice 2020/S 046-109668 as notification of its intent to re-procure the Personal Independence Payment (PIP) Contracts for assessment services in accordance with Section 7, PCR as part of a larger procurement for other types of assessment services (FAS procurement). Due to the impact of the COVID-19 Pandemic the new procurement was delayed and the PIP Contracts were extended for the reasons set out in Voluntary Ex Ante Transparency Notice 2020/S 249-622817. The FAS procurement was launched on 12 November 2021 and, although a light touch regime procurement, was based on a competitive dialogue procedure, the commencement of which included the submission of indicative bids.

During dialogue it became apparent that the contract value envelope for the FAS procurement needed to be revised in order to provide these key public services effectively. The procurement was therefore halted temporarily with a view to re-engaging with stakeholders .

It had also become clear that the ratio of face to face assessments versus remote assessments needed to be reviewed given the continuation of the Pandemic and further time was spent ensuring the contractual arrangements had built-in flexibility to deal with changing circumstances and impact the above changes. DWP also considered that a further round of commercial dialogue (not originally planned) was necessary to ensure the quality of BAFO submissions in the face of the revised contractual framework. Due to these various activity streams, it was therefore impossible for DWP to avoid a negative impact on its original timetable.

The procurement is now well underway. DWP do not envisage there will be cause for further delay. However, due to the additional activities and subsequent delay (see above) in order to ensure an efficient and smooth handover between the PIP and the new FAS providers during an appropriate implementation period, DWP considers an extension of 7 months to the PIP contracts term is necessary. Without an extension there could be a delay to provision of assessments for the critical statutory welfare benefit which PIP services encompass. As the recipients of PIP constitute a vulnerable section of society,

DWP is of the view such an extension is necessary to ensure they are not disadvantaged further.

DWP considers Regulation 72(1)(b) PCR is applicable. For the reasons set out above, the provision of additional services until 1 March 2024 has become necessary and:

- (i) the need for modification has been brought about by circumstances linked to a procurement pause;
- (ii) the modification does not alter the overall nature of the contract; the services to be provided by the incumbent will remain consistent and there will be no alteration to the overall nature of the contract;
- (iii) the modification does not exceed 50 % of the original contract value. The price to be paid for the extended period of the contract does not exceed 50% of the original value of the contract; and
- (iv) DWP will publish a modification notice pursuant to Regulation 72(3) of PCR.
