Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Drainage Investigation, Cleaning and CCTV 2025 – 2027

Reference number

DN749444

II.1.2) Main CPV code

- 90000000 - Sewage, refuse, cleaning and environmental services

II.1.3) Type of contract

Services

II.1.4) Short description

Managing the drainage asset is a priority in the Council's Highways Strategy. To facilitate the identification of issues and asset data collection, there is a need to carry out detailed investigation and recording of asset condition. Once the condition is assessed the asset can be graded to enable maintenance schedules to be targeted and prioritisation of additional works. The work required includes cleaning and proving drainage systems, CCTV and mapping the assets.

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots

7

Lot 3 – Minor Drainage Repairs

A variety of minor works including but not limited to trial holes and drainage repairs, and general maintenance works. The Contractor shall be responsible for the provision and maintenance of all Traffic Control systems required to undertake the works. It shall include the delivery of works in urban areas and on principal roads, through to works on minor rural unclassified roads with restricted access. Site conditions will differ from task to task. There will be a variance in traffic flows, carriageway width, geometric alignment and speed restrictions depending on the location of the required works. Consideration will need to be given to the selection of the most appropriate plant, equipment, and traffic control on a site-by-site basis. d to be given to the selection of the most appropriate plant, equipment, and traffic control on a site-by-site basis. In providing the Service, the Contractor shall deliver the works in accordance with the drawings supplied and shall comply with the constraints detailed within the Specification as set out in Annex 2. In delivering the works, the Contractor shall take measures to prevent danger and nuisance to all residents and occupants adjacent to the Affected Property and all users of the Affected Property. It is envisaged that the majority of Task Orders, will be tasks suitable for 2 or 3 person teams. The number of site operatives required for each task will be agreed with the Task Service Manager prior to any works commencing.

The key services required under this Lot of the contract include:

Provision of Traffic Management including basic TM, Mobile Works, Stop and Go and Multi Way Lights.

Excavation, repair and reinstatement of identified drainage defects.

Provision of labour.

Provision of plant.

Provision of materials.

Disposal of arisings from operations.

The provision of these key services are to provide the Council with a flexible service to:

Assist with general planned maintenance and repairs to the highway drainage network.

React to urgent and unforeseen circumstances affecting the highway drainage network.
