A summary of the expected community benefits has been provided as follows:

It is a mandatory requirement that potential framework participants agree to support the concept, provision and ongoing development of community benefits provision in relation to this framework. Potential framework participants are required to agree to this mandatory requirement. They are also requested to provide a brief summary of the community benefits that have recently been delivered within Scotland, if at all, and also what impact and outcomes these have Page 16 to 17 achieved. Potential framework participants are required to summarise any proposed community benefits that will be developed and delivered as part of this contract if successful or, alternatively, potential framework participants confirm that they will engage with the NHS Scotland's Community Benefits Gateway (CBG). This gateway, developed through requests from suppliers seeking opportunities to support the delivery of community benefits within the contracting region, provides information on community benefit opportunities. The CBG is a free and easy to use online service that connects NHS Scotland suppliers with third sector community

organisations within Scotland and will be used for tracking and reporting and is an approved compliant route to the realisation of community benefits. For further information please visit NHSS Community Benefit Gateway.

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

The Authority will notify economic operators who submitted a tender or (where no deselection notification has previously been made) applied to be selected to tender, of its

Page 33 to 33 decision to award the framework agreement which notification will contain among other

information, a summary of the reasons why the economic operators was unsuccessful. The

notification will incorporate a 'standstill period' of a minimum of 10 clear calendar days

(or a

minimum of 15 if the communication method used is not electronic) between the date on which the Authority dispatches the notice(s) and the date on which the Authority proposes to conclude the relevant framework agreement. The bringing of court proceedings against the Authority during the standstill period will automatically continue the prohibition on entering into the framework agreement until the court proceedings are determined, discontinued or disposed of, or the court, by interim order, brings to an end the prohibition.

The remedies that may be awarded by the courts before the framework agreement has been

entered into include the setting aside of the decision to award the framework agreement to

the winning tenderer(s). The bringing of court proceedings against the Authority after the framework agreement has been entered into will not affect the framework agreement unless

grounds for the imposition of special penalties under the Public Contracts (Scotland)

Regulations 2015 can be established. Otherwise, the remedies that may be awarded by the

courts where the framework agreement has been entered into are limited to the award of damages
