Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- The products involved are manufactured purely for the purpose of research, experiment, study or development
- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The Royal Navy, part of the UK Ministry of Defence, intends to award a 3 month contract with a value of £300,000 to Shark Marine Technologies Inc for the purchase of 8 additional Beach Profiling Systems for Royal Navy.

In accordance with the provisions of The Public Procurement (Amendment etc.) (EU Exit) Regulations 2020 SI No. 2020/1319, this procurement falls to be regulated under the provisions of the Public Contracts Regulations 2015 (PCR 2015) as amended (in particular by SI 2020/1319). Prior publication of a contract notice in the Official Journal of the European Union is no longer appropriate.

It is considered that the award of the contract without prior publication of a contract notice in the UK e-notification service (in accordance with the relevant legislation) is lawful in accordance with regulation 32(5)(b) of the PCR 2015 (additional purchase of goods). This is because Royal Navy needs equipment which can perform with the inbuilt software which has already been specifically developed to meet their requirements and this can only be met by Shark Marine Technologies Inc as a partial replacement/extension of existing supplies. No alternative or substitutes can be provided as this would result in interoperability issues and disproportionate technical concerns in operation in an area of high risk where safety to life has already been identified through evidenced loss of life. The total duration of the original contract and this contract does not exceed 3 years.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No
