The services tendered in this document are part of a wider programme to stimulate the adoption of Transport, Logistics and Warehousing AI Training and Support.

The aim of this tender exercise is to identify and appoint a service provider to deliver a training provision to UK business beneficiaries as part of a larger programme of activities that seek to stimulate adoption and diffusion of AI & ML in the UK. The training provision of this tender exercise will be targeted to UK businesses from the transport, logistics and warehousing sector.

The key objective we are seeking to achieve is to address barriers to AI & ML adoption among businesses that seek to or have the potential to benefit from such technologies. More specifically we are seeking a provider to create course content and delivery to help UK businesses create data and AI leaders within their organisations. This will allow UK industry to assess how best to make use of their data and develop and implement a data and AI strategy.
