Tender

Design, Supply, Installation, Commissioning, and Maintenance of Shore Power Infrastructure at London Gateway and DP World Southampton

LONDON GATEWAY PORT LIMITED

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-034856

Procurement identifier (OCID): ocds-h6vhtk-05502b

Published 24 June 2025, 5:23pm

Changes to notice

This notice has been edited. The [previous version](#) is still available.

Scope

Description

Shore-to-Ship Power (SSP)-also known as Cold Ironing or Alternative Maritime Power (AMP)-is a system that allows ships docked at port to plug into the local electrical grid and turn off their diesel engines. This helps reduce air pollution, greenhouse gas emissions,

and noise in port areas.

London Gateway Port -

A deep-sea container port located on the River Thames, opened in 2013. Operated by DP World, it features semi-automated terminals and advanced logistics. Hosts the UK's most integrated logistics hub with direct rail and road links.

Includes a rapidly expanding logistics park for warehousing and distribution.

Recently launched the world's first all-electric berth, emphasizing sustainability.

DP World Southampton -

One of the UK's busiest container terminals, located on the south coast. Offers fast, reliable, and secure cargo handling with advanced infrastructure. Known for the fastest landside turnaround time-averaging 35 minutes.

Provides consistent vessel performance and resilient operations in high winds. Integrated with national rail networks, ensuring 99.5% on-time rail freight delivery.

Electrical Works (Design, Supply and Construct)

- Cable Management - Organized routing, securing, and protection of all electrical cables across the site.
- Electrical Control & Protection Systems - Installation of control panels, protection relays, and associated systems for safe and efficient operation.
- SCADA Systems - Deployment of SCADA for centralized control and real-time monitoring of electrical infrastructure.
- LV Distribution & Lighting - Installation of low-voltage electrical networks including lighting systems across the yard.
- Control & Protection Systems - Redundant mention reaffirming the critical role of control and protection in all electrical installations.
- Waste Disposal - Safe and compliant disposal of electrical and construction waste materials.
- Periodic Maintenance - Scheduled maintenance of all installed systems to ensure long-term reliability and performance.

Total value (estimated)

- £10,000,000 excluding VAT
- £12,000,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 1 October 2025 to 1 October 2027
- 2 years, 1 day

Main procurement category

Works

CPV classifications

- 31154000 - Uninterruptible power supplies
- 45310000 - Electrical installation work

Contract locations
