Section I: Contracting authority

I.1) Name and addresses

The Secretary of State for Justice acting as part of the Crown, Ministry of Justice

Zone 3.19, 3rd Floor, 10 South Colonnade, Canary Wharf

London

E14 4PU

Email

Norman.Humphrey@justice.gov.uk

Telephone

+44 02033343555

Country

United Kingdom

Region code

UK - United Kingdom

Internet address(es)

Main address

<https://www.gov.uk/government/organisations/ministry-of-justice>

I.3) Communication

Additional information can be obtained from the above-mentioned address

I.4) Type of the contracting authority

Ministry or any other national or federal authority

I.5) Main activity

Public order and safety

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

LAN Services

Reference number

prj_9723

II.1.2) Main CPV code

- 72710000 - Local area network services

II.1.3) Type of contract

Services

II.1.4) Short description

The purpose of this Prior Information Notice (PIN) is to inform the market of the potential

opportunity for the provision of local area network (LAN) services and the MoJ's intention to engage with potential suppliers through a market engagement event to be held on 11 January 2023.

The LAN services will securely connect the MoJ's devices within its c.1,000 sites to other networked devices and to its wide area network (WAN) service. The scope of the LAN services includes:

- Management of the MoJ's existing fixed LAN and wireless LAN infrastructure and any newly provisioned fixed or wireless LAN;
- Onboarding of existing standalone Wi-Fi infrastructure and its integration with the fixed LAN at trigger events;
- Deployment and maintenance of structured cabling and patching across the MoJ's sites; and
- Call-off engineering services within the MoJ's local ICT rooms.

The LAN service will be structured into three key areas of responsibility: fixed LAN, wireless LAN and physical environment support.

For the fixed LAN and wireless LAN elements, the scope covers the provision of:

- Corporate LAN switching and management of the existing fixed LAN infrastructure;
- Wireless LAN access and management of the existing wireless LAN infrastructure;
- Fixed and wireless infrastructure consolidation;
- LAN segmentation;
- Integration with the MoJ's network access control (NAC) service;
- Inventory reconciliation;
- Maintenance of software, firmware, and security fixes;
- Maintenance arrangements for the LAN devices; and
- A LAN spare device pool.

For the physical environment support element, the scope covers the provision of:

- Patching and cabling in the MoJ's ICT rooms;
- Fixed LAN field services; and
- Wireless LAN surveys.

The number of devices in scope for support upon commencement of the contract will be between 12,000 and 30,000 – depending upon whether all Wi-Fi access points are included in scope, which MoJ shall decide at its discretion.

It is the MoJ's intention, at an appropriate time during the contract, to in-source the LAN management services. The contract will therefore be structured to facilitate transition to such an insourced arrangement.

The contract for LAN services will be entered into with MoJ. However, the services will be provided for the benefit not only of MoJ but also a range of service recipients (including a range of MoJ executive agencies, arms' length bodies, government companies and other entities to whom MoJ provides services). A list of the potential service recipients will be included in the procurement documents.

It is anticipated that the procurement will commence in January 2023 via the Ministry of Justice eSourcing system at <https://ministryofjusticecommercial.bravosolution.co.uk> - Interested suppliers must be registered on this site and will need to execute a confidentiality agreement in order to access the procurement documents.

Value excluding VAT: Value range £70,000,000 – £180,000,000

The actual contract value will be dependent on whether any extension options are applied, the extent to which projects are commissioned, whether the LAN management services are insourced during the lifetime of the contract, and the volume of Wi-Fi access points to be included in scope for support.

II.1.5) Estimated total value

Value excluding VAT: £180,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 30237110 - Network interfaces
- 30237135 - Network interfaces cards
- 32410000 - Local area network
- 32412000 - Communications network
- 32412100 - Telecommunications network
- 32415000 - Ethernet network
- 32418000 - Radio network
- 32420000 - Network equipment
- 32421000 - Network cabling
- 32422000 - Network components
- 32423000 - Network hubs
- 32424000 - Network infrastructure
- 32427000 - Network system
- 32428000 - Network upgrade
- 48200000 - Networking, Internet and intranet software package
- 48210000 - Networking software package
- 48214000 - Network operating system software package
- 50312300 - Maintenance and repair of data network equipment
- 72315000 - Data network management and support services
- 72315100 - Data network support services
- 72315200 - Data network management services
- 72511000 - Network management software services
- 72710000 - Local area network services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The purpose of this Prior Information Notice (PIN) is to inform the market of the potential opportunity for the provision of LAN services and the MoJ's intention to engage with potential suppliers through a market engagement event to be held on 11 January 2023.

In the first instance, suppliers should register on the MoJ eSourcing Portal at <https://ministryofjusticecommercial.bravosolution.co.uk/> and, within the eSourcing Portal, register for event 'PQQ_322 - Evolve LAN Services - Pre-Procurement Supplier Engagement'.

Information for prospective suppliers will be provided within the eSourcing Portal, including full details of the market engagement event, and a suite of material relevant to the procurement including a confidentiality agreement. There is also a messaging feature for any questions to MoJ and for receiving any further updates.

Suppliers will not be required to sign the confidentiality agreement in order to attend the market engagement event but will need to sign the confidentiality agreement if they wish to have access to the procurement.

The Ministry of Justice (MoJ) is currently in the process of securing the necessary approvals to go to market to procure the LAN services. This PIN does not formally signify the beginning of a procurement and does not constitute a commitment by the MoJ to undertake any market engagement events or procurement exercises. All information contained within this PIN – including without limitation scope, timing and procurement plans – remains subject to Government governance and approvals.

When the MoJ decides to formally commence the procurement for LAN services, a separate contract notice will be issued in the Find a Tender Service (<https://www.find-tender.service.gov.uk/Search>)

Any resulting procurement will be managed electronically via the MoJ eSourcing Portal (<https://ministryofjusticecommercial.bravosolution.co.uk/>).

II.3) Estimated date of publication of contract notice

12 January 2023

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
