Value excluding VAT: £39,999,450

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKF11 - Derby

II.2.4) Description of the procurement

These services contribute to improving child health and wellbeing through early identification of issues by offering support across their level of identified need.

These services contribute to the Drug strategy - achieving a generational shift in the demand for drugs.

Service comprises of: Health visiting (statutory ante-natal and post-natal visits up to the child's age of 3); Specialist health visiting (asylum seeking and teenage pregnancies). School nursing - prevention in general schools and tackling risky behaviour (self-harm, etc). Young Person's substance misuse up to age 21 and 25 where there is a SEND case; Linkages across maternity and midwifery; Enhancing Family success (violence prevention programme); National child weight management programme; Child obesity strategy delivery; Vision screening and Oral health programmes; Delivery of the national healthy child and best start in life programmes.

II.2.11) Information about options

Options: Yes

Description of options

further 2 x 12 month extensions to a maximum contract period of 5 years

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons
- Extreme urgency brought about by events unforeseeable for the contracting authority
- New works/services, constituting a repetition of existing works/services

Explanation:

Negotiated without a prior call for competition

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - Cost of change is prohibitive for new providers
- Extreme urgency brought about by events unforeseeable for the contracting authority
- New works/services, constituting a repetition of existing works/services

Explanation:

We are awarding the contract without prior publication under paragraphs 2(b)(ii), 2(c) and 9 of Article 32 of Directive 2014/24/EU.

The technical reason (2(b)(ii)) is that there will be significant cost and inconvenience to the Authority and economic operators associated with tendering for the following reasons:

- The current economic operator is well established within the city - there are considerable economies of scale and service provision is embedded within schools, housing centres, primary and secondary health services, the local authority and the integrated care system. It would be unfeasible to re tender and/or disaggregate contract elements - cost would be too

great.

- The service requires, multiple premises within Derby to operate from, that include specialised clinical rooms and have sufficient capacity to allow for 1:1 counselling sessions and group activities simultaneously
- These premises must also include staff offices and secure reception areas
- Clinical equipment, office equipment, security equipment, clinical supplies already in the community at contract handover will need to be replaced and this will occur again at the end of the contract period, causing inconvenience to service users and additional cost for the Council and economic operators
- The current economic operator holds personal and sensitive data on service users which will need to be transferred to a new economic operator and transferred again at the end of the contract, increasing the risk of loss or breach of data
- Under TUPE legislation the current economic operator's staff are entitled to transfer to the new economic operator

Cost of change is therefore prohibitive for new providers.

The urgency(2(c)) has been brought about as a result of:

- Delays in establishing the Provider Selection Regime (PSR) after the establishment of Integrated Care Boards - all stakeholders expected PSR to have been established mid 2022 therefore not expecting a tender

This service is a statutory requirement of the council therefore service provision must be maintained, a new contract can be put in place - a gap in service provision would break the law

The service provider forms part of the local integrated care system and thereby being part of the local health economy that needs stability after the recent turmoil of the pandemic, changes to legislation and the economic crisis. Therefore direct award also prevents further instability in the market.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract/concession

A contract/lot is awarded: Yes

V.2) Award of contract/concession
