## **II.2.4) Description of the procurement**

For Domestic Properties:

- Procure and/or manufacture 150-300ltr slow drain water butt kits that include connection with various downpipe types. The slow drain feature will allow half of the content to drain over 5+hrs and the other half available to the customer.
- Installation service of water butts and associated apparatus.
- Manage any inbound contact, aftersales and snagging that may occur within 3 months of the water butt installation.

For Commercial Properties;

- The creation of a brochure detailing a range of storm water capture devices such as tanks, large water butts and planters.
- The procurement and/or manufacture of such devices.
- Provide a resource to;
  - o Make contact with, and hold a consultation with owners of large roof area buildings.
  - o Offer the owner a brochure interventions including planters, tanks and larger water butts.
  - o Deliver these interventions to the satisfaction of the property owner and client

- Manage any inbound contact and snagging that may occur within 3 months of the water butt installation.

SWS has developed a set of questions and is looking forward to receiving your responses to the questionnaire.

The questions are not mandatory, but by answering all the questions fully, you will assist us in building an informed view of the external market and its expectations for successful and mutually beneficial contracting relationships.

The deadline for the return of the completed questionnaires is 20/01/2023

Thank you in advance for your cooperation.

PLEASE SEE THE LINK TO THE QUESTIONNAIRE ON THE E-SOURCING PORTAL BELOW:
