Award

WasteDataFlow Administration and Management

Defra Network eTendering Portal

F15: Voluntary ex ante transparency notice

Notice identifier: 2022/S 000-035013

Procurement identifier (OCID): ocds-h6vhtk-038c7e

Published 12 December 2022, 8:45am

Section I: Contracting authority/entity

I.1) Name and addresses

Defra Network eTendering Portal

Nobel House

London

SW1P 3JR

Email

network.procurement@defra.gov.uk

Telephone

+44 2072385921

Country

United Kingdom

Region code

UK - United Kingdom

Internet address(es)

Main address

<https://www.gov.uk/government/organisations/department-for-environment-food-rural-affairs>

I.4) Type of the contracting authority

Ministry or any other national or federal authority

I.5) Main activity

Environment

Section II: Object**II.1) Scope of the procurement****II.1.1) Title**

WasteDataFlow Administration and Management

II.1.2) Main CPV code

- 90711500 - Environmental monitoring other than for construction

II.1.3) Type of contract

Services

II.1.4) Short description

WasteDataFlow is government's main source of data and statistics on waste. It provides the essential data to monitor progress towards future recycling targets. The Waste (England and Wales) Regulations 2011 contains a duty for the Secretary of State to produce a waste management plan for England that contains measures to ensure a 65% recycling rate and

that no more than 10% of municipal waste is landfilled by 2035. Waste data Flow data is essential to meeting the requirement of the waste management plan by ensuring that we have accurate statistics to monitor progress with national recycling rates.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £1,149,520

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

WasteDataFlow is government's main source of data and statistics on waste. It provides the essential data to monitor progress towards future recycling targets. The Waste (England and Wales) Regulations 2011 contains a duty for the Secretary of State to produce a waste management plan for England that contains measures to ensure a 65% recycling rate and that no more than 10% of municipal waste is landfilled by 2035. Waste data Flow data is essential to meeting the requirement of the waste management plan by ensuring that we have accurate statistics to monitor progress with national recycling rates.

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

WasteDataFlow data collection and functionality will eventually largely be replaced by the electronic waste tracking service (WTS), from 2024. WTS is part of the “Smart Environment programme” (SERP) and contracts for the next two years work on SERP are currently being procured. On current WTS schedules a full WasteDataFlow service will be required only until summer 2025.

WasteDataFlow is a unique webportal for the reporting of Local authority waste collection and disposal by Local authorities in the United Kingdom. The system collects complex information, has validation and reporting modules built in. It has been tailored to meet different reporting requirements for each of the DA's.

The contract also provides for a helpdesk of experienced staff to help Local authorities submit and validate data.

There would be significant costs for a new provider in taking on WasteDataFlow for this fairly short period of time. The cost of setting up and getting an experienced team in place on top of regular contract running costs would be prohibitive in producing a competitive tender. Jacobs has provided the service since 2015 and is familiar with the work to complete this requirement. There is also likelihood of some proprietary information. They have also provided competitive pricing for completion of the project, and if this goes out to tender then it is likely their quote will be much higher.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract/concession

Title

Wastedataflow Administration and Management

A contract/lot is awarded: Yes

V.2) Award of contract/concession

V.2.1) Date of conclusion of the contract

1 December 2022

V.2.2) Information about tenders

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor/concessionaire

Jacobs UK Ltd

Cottons Centre, Cottons Lane

London

SE1 2QG

Country

United Kingdom

NUTS code

- UK - United Kingdom

The contractor/concessionaire is an SME

No

V.2.4) Information on value of contract/lot/concession (excluding VAT)

Total value of the contract/lot/concession: £1,149,520

V.2.5) Information about subcontracting

The contract/lot/concession is likely to be subcontracted

Section VI. Complementary information

VI.4) Procedures for review

VI.4.1) Review body

Royal Courts of Justice

London

Country

United Kingdom
