8.3. The contract duration will be 3+1 years, with core support running from 1st April 2025 to 31st March 2029. There will be an additional Option Year available for the period 1st April 2028 to 31st March 2029.

**II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

## Section IV. Procedure

### IV.1) Description

#### IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- The products involved are manufactured purely for the purpose of research, experiment, study or development
- The works, supplies or services can be provided only by a particular economic operator for the following reason:
  - absence of competition for technical reasons

Explanation:

In accordance with regulation 4 of The Defence and Security Public Contracts (Amendment) (EU Exit) Regulations 2019 (SI 2019/697) this procurement falls to be regulated under the provisions of the Defence and Security Public Contracts Regulations 2011 as amended (in particular by SI 2019/697 and SI 2020/1450). Prior publication of a contract notice in the Official Journal of the European Union is no longer appropriate. It is considered that the award of the contract without prior publication of a contract notice in the UK e-notification service (as required by the relevant legislation) is lawful in accordance with regulation 16(1)(a)(ii) of the DSPCR 2011 for technical reasons.

This is because the Contractor is the manufacturer of and design authority for, and holder of all relevant intellectual property rights and proprietary information (such as drawings and specifications) in, the G-AMB radars and the Authority procured:

- (i) the G-AMB radars from the Contractor under the terms of a contract entered into on 17.8.2015
- (ii) logistic support from the Contractor for such radars under a contract entered into on 1.1.2014 (contract expired 31.12.2018)
- (iii) logistic support from the Contractor for such radars under a contract entered into on 1.1.2019 (contract expired 31.03.2024)
- (iv) logistic support from the Contractor for such radars under a contract entered into on 28.06.2024 (contract expires 31.03.2025)

No licences have been granted to any other persons, including the Authority, to obtain

and exploit the drawings and specifications necessary to provide the requirement to support the equipment. The Contractor, as the only manufacturer and supplier of the G-AMB radars as a defence product, is the only economic operator with the specific knowledge of the system to be able to support such equipment.

In support of G-AMB functionality, the Contractor produce software and the specialist applications that are deeply integrated with the unique hardware that makes up the G-AMB product. Only SAAB is able to offer the necessary software and hardware support to ensure that security risks, obsolescence and capability updates can be managed. Safe operation and maintenance of the G-AMB are dependent upon a well-informed support arrangement and only SAAB can provide sufficient knowledge to ensure that any safety issues identified are fully addressed by their support activities.

The Contractor is therefore the only economic operator capable of meeting the Authority's technical requirements under the Contract.

#### **IV.1.8) Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: No

---

## **Section V. Award of contract/concession**

A contract/lot is awarded: Yes

### **V.2) Award of contract/concession**

#### **V.2.1) Date of conclusion of the contract**

30 October 2024

#### **V.2.2) Information about tenders**

The contract has been awarded to a group of economic operators: No

#### **V.2.3) Name and address of the contractor/concessionaire**

SAAB AB

Stockholm

Country

Sweden

NUTS code

- SE - Sweden

The contractor/concessionaire is an SME

No

#### **V.2.4) Information on value of contract/lot/concession (excluding VAT)**

Total value of the contract/lot/concession: £30,000,000

#### **V.2.5) Information about subcontracting**

The contract/lot/concession is likely to be subcontracted
