Leeds Community Healthcare NHS Trust

Leeds

Country

United Kingdom

NUTS code

- UKE42 - Leeds

Justification for not providing organisation identifier

Not on any register

The contractor/concessionaire is an SME

No

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

The variation is requested under the provision of Regulation 72 (1c) of the Public Contracts Regulations 2015, which states that modifications can be made where all of the following conditions are fulfilled:

(i) the need for modification has been brought about by circumstances which a diligent contracting authority could not have foreseen;

(ii) the modification does not alter the overall nature of the contract;

(iii) any increase in price does not exceed 50% of the value of the original contract or framework agreement.

It is considered that these conditions are met because:

? The original intention was that the review of the service model and re-procurement be completed by the end of the current contract period. However, this has not been possible because of the ongoing service disruption caused by the pandemic and subsequent outbreak of Monkeypox. The combination of these events means that the service has still not been able to implement its "reset and recovery" process, as a result of ongoing clinical restrictions (social distancing, isolation rooms etc.), reduced staffing (through sickness, diversion to activities beyond the scope of the core delivery such as testing, vaccinating and attending additional meetings) and decreased service capacity (for example additional screening time, repurposing of appointment slots). This has prevented

commissioners from assessing the implications for the new model. Furthermore, commissioners have had, and continue to have, reduced capacity to undertake the review because of the need to work on the city's response to Monkeypox.

? The change is only to the contract period, and does not affect the terms and conditions of the service.

? The value of the additional period is 17% of the original contract value.

The contract is due to expire on 31st March 2023 with no option to extend, and the contract is being modified so that the end date is varied to 30th June 2024. This is to ensure continuity of the mandated service whilst a service model review and subsequent procurement is carried out.

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

The variation is requested under the provision of Regulation 72 (1c) of the Public Contracts Regulations 2015, which states that modifications can be made where all of the following conditions are fulfilled:

(i) the need for modification has been brought about by circumstances which a diligent contracting authority could not have foreseen;

(ii) the modification does not alter the overall nature of the contract;

(iii) any increase in price does not exceed 50% of the value of the original contract or framework agreement.

It is considered that these conditions are met because:

? The original intention was that the review of the service model and re-procurement be completed by the end of the current contract period. However, this has not been possible because of the ongoing service disruption caused by the pandemic and subsequent outbreak of Monkeypox. The combination of these events means that the service has still not been able to implement its "reset and recovery" process, as a result of ongoing clinical restrictions (social distancing, isolation rooms etc.), reduced staffing (through sickness, diversion to activities beyond the scope of the core delivery such as testing, vaccinating and attending additional meetings) and decreased service capacity (for example

additional screening time, repurposing of appointment slots). This has prevented commissioners from assessing the implications for the new model. Furthermore, commissioners have had, and continue to have, reduced capacity to undertake the review because of the need to work on the city's response to Monkeypox.

? The change is only to the contract period, and does not affect the terms and conditions of the service.

? The value of the additional period is 17% of the original contract value.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £8,254,745

Total contract value after the modifications

Value excluding VAT: £53,602,436.24
