## Section II: Object

### II.1) Scope of the procurement

#### II.1.1) Title

Framework for Supply, Installation and Maintenance of Authority Owned Bus Shelter and Bus Stop Infrastructure

Reference number

UN24309

#### II.1.2) Main CPV code

- 44212321 - Bus shelters

#### II.1.3) Type of contract

Supplies

#### II.1.4) Short description

Hampshire Passenger transport service owns and maintains approximately 125 bus shelters across Hampshire County Council's passenger transport remit to support the region's public transport network by making it easier for people to access employment, healthcare, leisure and education. An improved public transport system supports economic growth by providing a more efficient transport network, reducing traffic congestion and enabling sustainable development.

Bus Shelters (BS)

The scope of works for shelters is A) Maintenance/repair, B) Assessments/checks, C) Supply/installation of shelters:

Maintenance - to include replacement of damaged shelter panels (polycarbonate, wood, aluminium/stainless steel and glass), removal and replacement of structural components including legs, transoms and midrails, cleaning of bus shelters/Real Time Information Units (RTPI), close down and removal of shelters, emergency shelter removals/close-downs/call outs, supply/install shelter graphics and integrated flag details, supply and install integrated flags/timetable cases, the removal, relocation and reinstallation of shelters, refurbishment of shelters (including on-site and off-site), storage of shelters, disconnection and reconnection of power supplies.

Assessments/checks - to include shelter surveys, CCTV monitoring including

removal/transport of hard drives and help point monitoring, assessments of shelter paint micron density, metal fatigue/strength tests, wood fatigue/strength tests, solar panel meter recording. Periodic and routing electrical safety inspections and certification.

Supply/installation of shelters - to include manufacture from wood, aluminium and stainless steel. Differing sizes of modular construction and various roof width options. Other options to include polycarbonate panels, stainless steel, safety glass, RAL paint colour options, CCTV, solar panels, LED lighting, timer/proximity light sensors, installation of RTPI displays and brackets, provision of electrical feeder pillars and switchgear and trenching, management of supply of electrical connection.

### **Bus Stop Infrastructure (BSI)**

The scope of works for Bus Stop Infrastructure tasks is A) Maintenance, B) Civil Works and C) Supply:

Maintenance - to include banding of flags/timetable cases/litterbins to poles, cleaning of bus stops/kiosks/CCTV/solar panels, close down of stops, emergency stop closes/call outs, supply/install post graphics and flag details, supply and install integrated flags/timetable cases/roundels, surveys, user acceptance tests of infrastructure, CCTV monitoring, removal/transport of hard drives and help point monitoring.

Civil works - to include 76mm poles, hardstands of various sizes, raised boarding kerbs, tactile dropped kerbs and repairs to existing stop civil works.

Supply - to include stop pole, bus stop cap, bus stop roundels, banding, bus stop flags, clearway plates, temporary stops, timetable case cap/vinyl/poly, CCTV, solar panels, near field communication tag ("NFC" tag) has small microchips that can be read by in range mobile devices. Information is stored in these microchips. An NFC tag that has the ability to send data to mobile phones with NFC capabilities; brackets for flag/timetable case and stickers (various - Traveline etc.).

#### **II.1.5) Estimated total value**
