Contract

Laser Capture Microdissection (LCM) system

University of Exeter

F03: Contract award notice

Notice identifier: 2022/S 000-035336

Procurement identifier (OCID): ocds-h6vhtk-0386f6

Published 14 December 2022, 10:39am

Section I: Contracting authority

I.1) Name and addresses

University of Exeter

Northcote House

Exeter

EX4 4QH

Contact

Sam Barker

Email

samantha.barker@exeter.ac.uk

Telephone

+44 11111

Country

United Kingdom

Region code

UKK4 - Devon

National registration number

RC000653

Internet address(es)

Main address

<http://www.exeter.ac.uk>

Buyer's address

<https://uk.eu-supply.com/ctm/Company/CompanyInformation/Index/53042>

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Education

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Laser Capture Microdissection (LCM) system

Reference number

UOE/2022/087/HC

II.1.2) Main CPV code

- 33128000 - Medical laser other than for surgery

II.1.3) Type of contract

Supplies

II.1.4) Short description

The University of Exeter is looking to purchase a Leica LMD6 Laser Microdissection (LMD) System. This system stage to be kept still during dissection, ensuring accurate dissection of target cells. Microscope slide bed motors can be disengaged for free movement of the stage by hand and the software picks up the position, speeding up identification of an area of interest. Optics are specifically designed for laser microdissection; these custom-made objectives are made for the process and will therefore be more accurate and last longer. This system includes the software specific to Leica that enables the automated dissection of cells from samples based on an original selection criteria, this allows for automated sample collection, speeding up the process dramatically and making high throughput study designs possible. The LMD design means that samples are dissected and collected contact- and contamination-free..

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £239,166.63

II.2) Description

II.2.2) Additional CPV code(s)

- 33100000 - Medical equipments
- 38636100 - Lasers

II.2.3) Place of performance

NUTS codes

- UKK - South West (England)

II.2.4) Description of the procurement

The University of Exeter is looking to purchase a Leica LMD6 Laser Microdissection (LMD) System. This system stage to be kept still during dissection, ensuring accurate dissection of target cells. Microscope slide bed motors can be disengaged for free movement of the stage by hand and the software picks up the position, speeding up

identification of an area of interest. Optics are specifically designed for laser microdissection; these custom-made objectives are made for the process and will therefore be more accurate and last longer. This system includes the software specific to Leica that enables the automated dissection of cells from samples based on an original selection criteria, this allows for automated sample collection, speeding up the process dramatically and making high throughput study designs possible. The LMD design means that samples are dissected and collected contact- and contamination-free..

- Laser guided by optics for greater accuracy and speed, enabling high throughput research
- Stage is kept still during dissection, ensuring accurate dissection of target cells
- Microscope slide bed motors can be disengaged for free movement of the stage by hand and the software picks up the position, speeding up identification of an area of interest
- Optics are specifically designed for laser microdissection; these custom-made objectives are made for the process and will therefore be more accurate.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

The University of Exeter is looking to purchase a Leica LMD6 Laser Microdissection (LMD) System. This system stage to be kept still during dissection, ensuring accurate dissection of target cells. Microscope slide bed motors can be disengaged for free movement of the stage by hand and the software picks up the position, speeding up identification of an area of interest. Optics are specifically designed for laser microdissection; these custom-made objectives are made for the process and will therefore be more accurate and last longer. This system includes the software specific to Leica that enables the automated dissection of cells from samples based on an original selection criteria, this allows for automated sample collection, speeding up the process dramatically and making high throughput study designs possible. The LMD design means that samples are dissected and collected contact- and contamination-free..

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: [2022/S 000-032955](#)

Section V. Award of contract

Contract No

1

Title

Laser Capture Microdissection (LCM) system

A contract/lot is awarded: Yes

V.2) Award of contract

V.2.1) Date of conclusion of the contract

8 December 2022

V.2.2) Information about tenders

Number of tenders received: 1

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor

Leica Microsystems UK

Milton Keynes

Country

United Kingdom

NUTS code

- UKJ - South East (England)

The contractor is an SME

No

V.2.4) Information on value of contract/lot (excluding VAT)

Total value of the contract/lot: £239,166.63

Section VI. Complementary information

VI.4) Procedures for review

VI.4.1) Review body

Royal Court of Justice

London

Country

United Kingdom
