Engagement

Engagement deadline

11 July 2025

Engagement process description

I am currently exploring potential partnerships in the electric vehicle (EV) charging sector. We are in the early stages of evaluating the market for EV charging solutions to support a utility business fleet of approximately 2,000 vehicles. We are currently in the analysis phase and would value any insights or materials that could support our decision-making process. Please note this Pre Market Engagement does not contribute to the procurement process.
