Scope

Description

An immediate requirement has been identified for the provision of cl80x including Automatic Train Protection (ATP) competent Freight Operating Company (FOC) Drivers who are trained to Great Western Railway (GWR) standards. The FOC Drivers are required over 17 days to provide driving services to GWR for the management and servicing of its rolling stock to/from off network locations as mitigations to planned perturbation. In addition to driving services, there is also a requirement for Person in Charge (PICs) to work with the Drivers and operate off network facilities/locations on behalf of GWR. To ensure GWR can deliver for its customers, the route learning for the FOC Drivers must commence no later than August 2025. A tender will be published shortly for future requirements.

Direct award justification

Extreme and unavoidable urgency

Due to substantial scope changes in GWR requirements GWR intends to re-tender the entire requirement to ensure compliance with procurement legislation and to uphold the principles of fairness, transparency, and equal opportunity for all potential bidders.

However, due to time constraints preventing the completion of a full procurement process at this stage, a short-term direct award has been made to meet urgent operational requirements.

A full tender process will be launched in due course.
