Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

As per section 32, clause 5b of the public contract regulations, the negotiated procedure without

prior publication may be used for public supply contracts or additional deliveries by the original

supplier which are intended either as a partial replacement of supplies or installations or as the

extension of existing supplies or installations where a change of supplier would oblige the

contracting authority to acquire supplies having different technical characteristics which would result

in incompatibility or disproportionate technical difficulties in operation and maintenance. Traka is a

closed protocol system and is already installed in most sites across the estate which we are now

required to expand and therefore this procurement adheres to the case as set out in clause 5b. In

addition to this, clause b(iii) states the negotiated procedure without prior publication may be used

where the works, supplies or services can be supplied only by a particular economic operator due to

the protection of exclusive rights, including intellectual property rights which applies to this procurement as Traka own the IPR which we require to interface with the existing infrastructure.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No
