II.2.4) Description of the procurement

Queen Elizabeth Olympic Park (QEOP), operated by London Legacy Development Corporation (LLDC), is a thriving destination. Ten years on from the Games of London 2012, the Park hosts major national and international events, is home to schools, universities, and workplaces, and is increasingly a place to live with new residential areas. In the coming years the new East Bank development will provide a new cultural quarter for London, with the V&A, BBC, University College London, University of the Arts London and Saddler's Wells opening new premises here. The Park currently welcomes over 6m visits a year, but when the East Bank development fully opens, we look to attract over 10m visitors per annum.

LLDC has begun to investigate digital projects across QEOP. Guidance is required as to how these can best be considered collectively to maximise revenue potential. It will be important that our goals towards Net Carbon Zero by 2030 are considered within the narrative and solutions that are delivered as part of this commission.

Working with LLDC, the successful consultant is required to deliver a detailed report outlining best practice for the use of digital assets at our venues and locations. We look for guidance on functionality of each element including how real time messaging could be managed, and direction on how to achieve best value for money.

This is a single stage tender process, and it is anticipated that a single service provider will be appointed. The contract will be let for a period of 6 months, with optional extension periods of 2 x 12 months.

II.2.5) Award criteria
