Changes to notice

This notice has been edited. The <u>previous version</u> is still available.

To ensure the Authority is not perceived as putting any Supplier at an unfair advantage or disadvantage, the Authority has decided that the requirement for Suppliers to "...provide contact details for a senior management representative within the organisation detailed in your example that is willing to act as a reference and who you have confirmed is willing to be contacted by DWP to verify the information you have provided in your response..." shall be removed from Question 2.2.1. This modification is incorporated into this revised tender notice and any affected tender documents.

The Authority has considered the impact of this modification on applicable tender deadlines and has decided that there will be no extension to the tender submission deadline.

Description

The Authority intends to award a public contract under section 19 of the Procurement Act 2023 ("PA 2023"). This procurement for the award of that public contract is being conducted as an open procedure in accordance with sections 20(1) and 20(2)(a) of PA 2023 for the award of a light touch contract in accordance with section 9 of PA 2023.

Overview

DWP commissions the provision of circa 2 million Assessments per year, which are conducted on behalf of DWP by Healthcare Professionals (HPs) employed by suppliers that were awarded Functional Assessment Service (FAS) Contracts (FAS Providers). These Assessments are used to help determine eligibility to certain disability related benefits including Personal Independence Payment (PIP), Universal Credit (UC), Employment Support Allowance (ESA) and other Specialist Benefits.

The FAS Providers employ approximately 5,000 HPs to conduct Assessments on behalf of the DWP.

To conduct Assessments, HPs are required to have appropriate knowledge of the clinical aspects and the functional effects of a wide range of health conditions and disabilities as well as specific knowledge of how to conduct the Assessments and the related policy.

DWP owns a suite of benefit-related clinical Core Training and Guidance Materials (CTGM). The CTGM currently comprises a total of approximately 700 documents with a total of circa 30,000 pages. The CTGM is broken down into two categories, namely:

a) CTGM relating to carrying out Assessments which accounts for the vast majority of documents. In addition to providing the guidance to HPs and Authority Clinicians when conducting Assessments, FAS Providers are also required to use the CTGM to inform and develop training programmes and associated materials for their circa 5,000 HPs.

b) There are several CTGM documents for use by Authority Decision Makers. This category of CTGM includes guidance for Authority Decision Makers who determine eligibility for Attendance Allowance and Disability Living Allowance for Children.

In addition, DWP engages approximately 200 Authority Clinicians who will also use the CTGM for reference.

DWP is committed to ensuring clinical CTGM is annually reviewed and of the highest quality, evidence based, in-line with best practice and free from bias.

The Authority currently anticipates awarding a contract for the services (as further described below) for an initial period of 36 months with an option (at the Authority's discretion and subject to governance approval, available funding and satisfactory performance) for the Authority to extend the contract for a further period of up to 12 months by giving the Supplier written notice of no less than 20 Working Days before the initial term of the Contract expires.

Contract subject-matter

The following Services form the overall scope of Services required by the Authority under this procurement:

- a) Clinical QA Service carrying out a review of the CTGM;
- b) Annual Clinical Training Course Service delivering an annual clinical training course;
- c) Educational CPD Materials Service developing educational CPD materials.

The above Services are required to be delivered in accordance with:

- a) the relevant sections of the Specification, which is set out in Appendix B of the ITS;
- b) the relevant Service Levels, as set out in Appendix C of the ITS; and
- c) the terms and conditions of the Contract, for which a draft is set out in Appendix D of the ITS.

The Authority has considered whether the FACATS Services could reasonably be supplied under more than one contract by dividing the procurement into lots. The Authority has concluded that splitting the procurement into lots could make the requirement disproportionately expensive to manage and increase the technical risk to deliver the requirement. The Services will be supplied under one contract.

Weightings for the Technical Qualitative Questions:

The weightings for Technical Qualitative Questions apply to the overall question and the Supplier should ensure any areas highlighted by the bullet points are covered within the overall response. No individual bullet point has a separate weighting and, subsequently, does not have a greater or lesser impact on the overall question, which will be assessed as a whole. Information will be evaluated against the pre-determined criteria as stated in the ITS.

Suppliers' Tender Responses will be scored in accordance with the scoring criteria set out below.

The score awarded for each question (in accordance with the scoring methodology detailed in paragraph 168 of the ITS) will be converted to a percentage score (in accordance with the question's respective weighting shown in the table in paragraph 173 of the ITS) to give a total score using the following formula:

Percentage score % = (Score awarded / Maximum score) x Percentage weighting

Example:

If a Supplier is awarded a score of 7 (Good) for Question 1, the percentage score awarded for that question will be:

Percentage score $\% = (7/10) \times 22.5\% = 15.75\%$

The maximum score available in respect of the Technical Qualitative Questions is 70%. The different weightings reflect the relative importance of each question to the Authority.

Example CTGM documents:

The Authority will provide copies of example CTGM documents (as listed in Appendix N to the ITS), to aid Suppliers in understanding the variation in content and size of individual CTGM documents.

Due to CTGM documents being classified as Official and containing some information that is confidential, it is a requirement of the Authority that a Supplier completes and signs the Non-Disclosure Agreement (set out in Appendix O to the ITS) as a prerequisite of receiving the example CTGM documents listed in Appendix N.

	Price Methodology Any Tender which exceeds the Authority's available budget for the first year of the Contract shall be treated as noncompliant and rejected. The Authority's available budget for the first year of the Contract is £406,667 excluding VAT (i.e. £488,000 including VAT). If it appears to the Authority that any Tender may be abnormally low then the Authority may ask the Supplier to explain its price or costs. If following the Supplier's explanation, the Authority is not satisfied with the Supplier's account for the low level of price or cost in the Tender, the Authority may treat the Tender as noncompliant and reject it. Financial information should be submitted by Suppliers using the Pricing Quotation Template on the Portal. Further details on how to complete this Commercial Envelope can be found in the Pricing Quotation Template on the Portal. Further details on how to complete this Commercial Envelope can be found in the Pricing Quotation Template on the Portal. Financial Evaluation Methodology The	Price	Weighting 30.0%

the Commercial Envelope is 30% of the total available for the Tender. The price per Billable Page quoted by the Supplier for the Clinical QA Service will be multiplied by the total number of Billable Pages estimated per year, as detailed in the 'CTGM volumetrics' tab, i.e. 29,222 Billable Pages. The resulting value will be the Suppliers total Charges for the Clinical QA Service. The Suppliers total anticipated Charges for the Clinical QA Service will be added to the Suppliers quoted annual fixed prices for the Annual Clinical Training Course Service and the **Educational CPD** Materials Service. The resulting value will be the Suppliers total annual Charges for all Services. Each Supplier will be given a score under this Commercial Envelope using the calculation below: Calculation: (A /B) x 30% Where: A = the lowest total annual Charges for all Services from the Supplier who submitted the lowest total annual Charges; B = the totalannual Charges for all

Services for the Supplier being evaluated. Completing the Pricing Quotation Template You must complete the Pricing **Quotation Template** electronically using the spreadsheet provided. To open, click on the attachment, which should automatically open up the file. The attachment was produced in Microsoft Excel 365. Please ensure your Pricing **Quotation Template** response is completed in Microsoft Excel 2010 or later versions. All prices quoted in the **Pricing Quotation** Template must: a) be exclusive of VAT. b) not include indexation, as prices will be adjusted for indexation in accordance with the terms and conditions of the Contract.
