II.1.5) Short description of the contract or purchase(s)

Field Electrical Power Supplies - Support (FEPS-S) - OI/0078 – seeks to manage the provision of fleet management, repair and maintenance services for a fleet of Authority-owned generators, which will be provided as Government Furnished Equipment (GFE).

This will form one component of the General Purpose Power (GPP) capability, and will run between October 2023 and the delivery of the replacement provision, Manoeuvre Power (Man-P), in 2028 (estimated). Man-P is scoped to combine the entire GPP requirement into a single provision and is anticipated to be a competitive procurement.

GPP provides support for equipment including electrical power generators across the 2kW to 40kW range and electrical distribution equipment in three and one phase variants. It supports numerous applications in the Land Environment; to support command systems, communications equipment, and deployable medical facilities. GPP is required in diverse climatic conditions across the world for extended periods and is therefore a key component of the Front Line Commands' operating capability.

The Contractor will be required to work with an incumbent provider (Babcock Land Defence Limited) who is responsible for the provision of Level 1-3 Maintenance for all Standard variant FEPS equipment.

Equipment

The equipment will be provided as Government Furnished Equipment (GFE). Below is a limited summary of the equipment to be supported including the approximate number of FEPS fleet currently held by the Authority. The full and detailed requirement, including an update on the quantities is to be set out in the ITN;

- Approx. 840 x Generators in the 8kW to 40kW range, of which:

- o Approx. 40 x 8/12kW Generators
- o Approx. 500 x 16/24kW Generators
- o Approx. 300 x 40kW Generators
- These are primarily Standard variant FEPS generators, with some Wading variant FEPS generators.

There may also be a requirement for the Contractor to have custody of approx. 500 additional residual FEPS generators.

Service

FEPS-S main requirement is for through life support via Contracting for Availability (CFA), which may also include replacing equipment lost through attrition to upkeep availability.

Activities that support this capability include, but are not limited to; Asset Transition from current location, Responsibility as Design Authority, Asset Management including receipt and issue of demands for equipment, Management of Equipment Safety, Post Design Services, Through Life Support including maintenance, repair and supply of spares, User Single Point of Contact, Provision and Update of Technical Documentation, Obsolescence Management, with the possibility of Training provision.

The Contractor will be required to work with an incumbent provider (Babcock Land Defence Limited) who is responsible for the provision of Level 1-3 Maintenance for all Standard variant FEPS equipment.

The fleet of equipment will be held at various readiness levels to meet operational planning assumptions.

A limited version of the Statement of Work (SoW) in draft form has been uploaded as a supporting document to this CN. Please note, this is for the purposes of providing context of the expected service ONLY and is subject to change; it does not address activities such as service start-up or transition. The final Schedule of Requirement, against which companies will be invited to tender, will be issued with the ITN.

Duration

Starting from Contract Award in October 2023, the Contractor will need to demonstrate; that their CFA service meets the requirement, that the provided GFE is ready, and be in position to commence full operation of CFA from March 2024. There will be a phased introduction during the equipment transition from the current premises and a phased reduction in the level of service at the latter end of this Contract as Man-P is introduced

(current estimate 2028).

The Contract duration will be for 5 (five) years, with options to extend by up to a further 3 (three) years, to a maximum duration of 8 (eight) years.
