The intention of the Council is to direct award a call-off contract to ESRI via CCS Framework RM3821 Lot 2b. The direct award criteria have been met (the requirement must be intrinsically linked to a system already within the customer's organisation; the products they are looking to award must be present on the Government eMarketplace).

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

The Isle of Wight Council owns/has purchased previously ESRI software which is installed and configured on a server we host, as well as being deployed to user laptops for licenced users but we need to purchase the annual fee for support and maintenance and licences, in order to continue to use the software. ESRI software also allows us to utilise mapping. ESRI do not allow third parties to offer support and maintenance for this system and are the only providers for support and maintenance for their software. It is therefore the Council's intention to direct award to ESRI for this provision under Crown Commercial Services (CCS) framework RM3821 Lot 2b Data and Applications Solutions (DAS) where our requirement is intrinsically linked to a system already within our organisation (IWC). The Isle of Wight Council will be observing a 10-day standstill period which will end at midnight on 28th December 2022.
