The Authority (FLS) has established a Dynamic Purchasing System (DPS) for Woodland Establishment across Scotland.

A Dynamic Purchasing System (DPS) is an electronic system used to tender for services with a group of pre-qualified suppliers. FLS uses this system of pre-qualified suppliers to tender for Woodland Creation projects as and when they arise.

To submit a bid to join the DPS, suppliers need to submit a Single Procurement Document (SPD) through the DPS project on the Public Contracts Scotland – Tender (PCS-T) website. The SPD is a qualification response form which allows FLS to assess bidders' suitability, experience, and capability to provide the services which may be required under the DPS. Only bidders that achieve a 'Pass' for all questions in the SPD are appointed to the DPS.

The DPS comprises 2 Lots; Commercial and Amenity, and Planting and Maintenance.

This DPS is extending the validity date from the 31st October 2024 until 31st October 2029.
