II.1.4) Short description

FFLS is seeking an experienced service provider for the provision of Low Loader Moves with driver in forestry environment.

To ensure the continuity of delivery for various operations within Land Management, Harvesting and Marketing, Civil Engineering and workshop repairs we require our own heavy plant machinery, grab tanks and site safes to be securely transported between sites. Heavy plant will consists of harvesters, forwarders, tractors and a drill rig to be moved from site to site, other regions, site to workshop and back, or external repair agencies as and when required.

Our requirement is for a contract to supply a low loader and driver service to facilitate this. The work involves driving our equipment between FLS forests, which includes driving fully loaded low loaders up long gravel forest roads. All suppliers' drivers will need to be competent/trained in driving in Forest environment.
