- 64227000 - Integrated telecommunications services

II.2) Total final value of contract(s)

II.2.1) Total final value of contract(s)

Value: £628,557

Excluding VAT

Section IV: Procedure

Type of procedure

Negotiated without publication of a contract notice

Justification for the award of the contract without prior publication of a contract notice

1) Justification for the choice of the negotiated procedure without prior publication of a contract notice

No tenders or no suitable tenders in response to: negotiated procedure competition

All tenders submitted in reply to an open procedure, a restricted procedure or competitive dialogue were irregular or unacceptable. Only those tenderers were included in the negotiations which have satisfied the qualitative selection criteria: no

The periods for the restricted procedure and the negotiated procedure with prior publication of a contract notice are incompatible with the urgency resulting from a crisis: no

Extreme urgency brought about by events unforeseeable by the contracting authority/entity: no

The works/goods/services can be provided only by a particular tenderer for reasons that are:

technical

The contract concerns research and development services other than those referred to in the regulations: no

The products involved are manufactured purely for the purpose of research, experiment, study or development: no

Additional works/deliveries/services are ordered under strict conditions: no

For supplies quoted and purchased on a commodity market: no

New works/services, constituting a repetition of existing works/services: no

Contract related to the provision of air and maritime transport services for the armed forces deployed or to be deployed abroad: no

It is considered that this contract can be placed using the Negotiated Procedure Without Prior Publication of a contract notice pursuant to Regulation 16 (1)(a)(ii) of the Defence and Security Public Contract Regulations 2011 (DSPCR)) due to technical reasons. Following the competitive procedure, the MOD awarded initial JCRVT manufacture and support contract to L3Harris in 2016 which is due to expire in October 2023. A new short-term replacement in-service technical support is required. L3Harris are the Original Equipment Manufacturer (OEM) and have the specific technical skills, know-how and experience in providing the necessary Contractor Technical Support and Services to support and upgrade the equipment when required. They are also the only supplier who have access to the product design information to enable them to undertake any support and design modifications to the JCRVT system. Choosing to compete this requirement would introduce the possibility of contravention of the Defence Safety Authority (DSA) regulations as it would not be possible to ensure that another contractor could be sufficiently qualified within the requisite timeframes to undertake design and manufacture activities without including an associated unacceptable level of risk. This would result in the Authority not being able to fulfil safety requirements which are required to ensure the safe functioning of the User community. Due to the above reasons the requirement will continue as a single source requirement.

IV.2) Award criteria

IV.2.2) Information about electronic auction

An electronic auction has been used: no

IV.3) Administrative information

IV.3.1) File reference number attributed by the contracting authority

707684453

IV.3.2) Previous publication(s) concerning the same contract

Voluntary ex ante transparency notice

Notice number: [2023/S 000-012147](#) of 27 April 2023
