Award criteria

Name	Description	Type
Simple description	The contract will be awarded based on a combination of technical criteria (40%) and price (60%). The technical criteria will include project methodology (20%), service delivery (10%) and sustainable procurement (10%). The price criteria accounts for the remaining 60% of the overall score.	Price

Weighting description

The contract will be awarded based on a combination of technical criteria (40%) and price (60%). The technical criteria will include project methodology (20%), service delivery (10%) and sustainable procurement (10%). The price criteria accounts for the remaining 60% of the overall score.

Other information

Description of risks to contract performance

The total area maintained may increase or decrease by approximately 10-20% depending on future acquisition or disposal of university land or buildings.

The frequency and volume of service delivery (e.g. grass cutting, hedge trimming, path maintenance) may vary by approximately $\pm 15\%$ due to seasonal factors, evolving site use, or sustainability priorities.

The University may require additional one-off services such as storm damage clearance

or event-related support, which may increase the annual value of the contract by up to 10% in any given year.

Potential increase to labour costs due to inflation and rising real living wage (RLW).

Conflicts assessment prepared/revised

Yes
