Contract

# Plasma Focused Ion Beam and Gallium Focused Ion Beam Microscopes

University of Bristol

F03: Contract award notice

Notice identifier: 2022/S 000-035764

Procurement identifier (OCID): ocds-h6vhtk-036add

Published 16 December 2022, 6:32pm

# **Section I: Contracting authority**

# I.1) Name and addresses

University of Bristol

4th Floor, Augustine's Courtyard, Orchard Lane

Bristol

**BS1 5DS** 

**Email** 

yi19222@bristol.ac.uk

**Telephone**

# I.4) Type of the contracting authority

Body governed by public law

#### I.5) Main activity

Education

# **Section II: Object**

# II.1) Scope of the procurement

#### II.1.1) Title

Plasma Focused Ion Beam and Gallium Focused Ion Beam Microscopes

#### II.1.2) Main CPV code

• 38512100 - Ion microscopes

#### II.1.3) Type of contract

Supplies

#### II.1.4) Short description

The IAC at UoB has identified a need to procure a Plasma-Focused Ion Beam (PFIB) system, which allows for:

- Dual-beam capability with field emission gun scanning electron microscopy (FEGSEM) and plasma-based focused ion beam,
- · Micromachining with high milling rates,
- Sample liftout (size reduction),

- Tomography with analytical capability integrating energy-dispersive X-ray (EDX) and electron backscatter diffraction (EBSD) bought separately from a third party supplier,
- Gas injection using XeF2 enhanced etch, insulator, platinum and carbon, with options of other gas species.
- Cryogenic stage and vacuum transfer capability,
- Preparation of specimens for transmission electron microscopy (TEM) while minimising FIB-induced damage, atom probe tomography (APT) and micromechanical testing.
- Electrical feedthroughs for in-situ characterisation (minimum four channels for four-point resistance measurements).

In addition to the procurement of the PFIB instrument, UoB would like to also as part of this call upgrade the gallium focused ion beam (Ga-FIB) capability of the IAC facility, by procurement of a new Ga-FIB instrument, with the capability for:

- Dual-beam capability with FEGSEM and gallium focused ion beam
- Micromachining and imaging,
- Microcantilever manipulation of specimens for TEM, APT and micromechanical liftouts,
- Gas injection using XeF2 enhanced etch, insulator and organo-metallics containing platinum, with options of other gas species.

Both of these instruments will be utilized within the Interface Analysis Centre (IAC) microscopy and materials facility at UoB, which will be used by a large number of researchers from a large number of UK, European and worldwide Universities, Research Institutes and Industry, thus the equipment and associated software must be simple and straightforward to use, robust and also be sufficiently interlocked to protect the system against accidental misuse.

#### II.1.6) Information about lots

This contract is divided into lots: No

#### II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £1,790,000

# II.2) Description

#### II.2.3) Place of performance

**NUTS** codes

• UK - United Kingdom

#### II.2.4) Description of the procurement

The IAC at UoB has identified a need to procure a Plasma-Focused Ion Beam (PFIB) system, which allows for:

- Dual-beam capability with field emission gun scanning electron microscopy (FEGSEM) and plasma-based focused ion beam,
- Micromachining with high milling rates,
- Sample liftout (size reduction),
- Tomography with analytical capability integrating energy-dispersive X-ray (EDX) and electron backscatter diffraction (EBSD) bought separately from a third party supplier,
- Gas injection using XeF2 enhanced etch, insulator, platinum and carbon, with options of other gas species.
- Cryogenic stage and vacuum transfer capability,
- Preparation of specimens for transmission electron microscopy (TEM) while minimising FIB-induced damage, atom probe tomography (APT) and micromechanical testing.
- Electrical feedthroughs for in-situ characterisation (minimum four channels for four-point resistance measurements).

In addition to the procurement of the PFIB instrument, UoB would like to also as part of this call upgrade the gallium focused ion beam (Ga-FIB) capability of the IAC facility, by procurement of a new Ga-FIB instrument, with the capability for:

- Dual-beam capability with FEGSEM and gallium focused ion beam
- Micromachining and imaging,

- Gas injection using XeF2 enhanced etch, insulator and organo-metallics containing platinum, with options of other gas species.

Both of these instruments will be utilized within the Interface Analysis Centre (IAC) microscopy and materials facility at UoB, which will be used by a large number of researchers from a large number of UK, European and worldwide Universities, Research Institutes and Industry, thus the equipment and associated software must be simple and straightforward to use, robust and also be sufficiently interlocked to protect the system against accidental misuse.

#### II.2.5) Award criteria

Quality criterion - Name: Technical / Weighting: 75

Cost criterion - Name: Price / Weighting: 25

#### II.2.11) Information about options

Options: No

#### II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

#### Section IV. Procedure

#### **IV.1) Description**

#### IV.1.1) Type of procedure

Open procedure

#### IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

#### IV.2) Administrative information

#### IV.2.1) Previous publication concerning this procedure

Notice number: 2022/S 000-026656

#### Section V. Award of contract

#### **Contract No**

Lab-2205-118-PC\_2227

#### **Title**

Plasma Focused Ion Beam and Gallium Focused Ion Beam Microscopes

A contract/lot is awarded: Yes

### V.2) Award of contract

#### V.2.1) Date of conclusion of the contract

22 November 2022

#### V.2.2) Information about tenders

Number of tenders received: 2

The contract has been awarded to a group of economic operators: No

#### V.2.3) Name and address of the contractor

FEI UK Ltd

c/o Oakwood Corporate Services Ltd, 1 Ashley Road

Altrincham

**WA14 2DT** 

Country

**United Kingdom** 

**NUTS** code

• UK - United Kingdom

The contractor is an SME

No

# V.2.4) Information on value of contract/lot (excluding VAT)

Total value of the contract/lot: £1,790,000

# Section VI. Complementary information

# VI.4) Procedures for review

VI.4.1) Review body

The University of Bristol

Bristol

Country

**United Kingdom**
