Urgent clinical services are needed to address the rise in patient demand and patient backlog. Following a review of two suppliers from the NHS SBS Clinical Insourcing Framework, the trust was able to make an informed choice on the preferred supplier for a short term solution.

Given the wait time breaches and clinical risk, the trust did not have sufficient time to run a competitive process under the Provider Selection Regime, which is why a short-term contract (3 months) was entered into with Medinet Clinical Services Ltd.
