II.2.4) Description of the procurement

To meet our ambition, we are seeking to procure carbon accounting software to track emissions and emissions reductions across all three scopes.

Key drivers for requiring carbon accounting software:

- Improve accuracy of emissions accounting, planning, reporting and tracking impact of actions
- Increase confidence in scope 3 reporting.
- Tracking emissions will become more complex, as we grow our multi-site operations
- Require accurate emissions profile to gain insight to identify areas of action.
- The ability to translate targets into actions.
- Be more transparent with our emissions reporting both internally and externally.
- Save time and money – emissions calculation is currently a manual process, tracked using spreadsheets.
- To be able to track emissions according to business operations such as retail and temporary exhibitions.
