The UK Atomic Energy Authority has a requirement for the MAST-U EBW Water Circulation Plant. This requires detailed design and fabrication, which includes installation of the system using free issue items. The system is required to supply cooling to two gyrotrons and a dummy load using a parent system already installed in the MAST-U area.

Further information regarding the requirement is included within the document available from the link in this notice. A number of questions are included at Appendix 1 to aid with development of the procurement strategy and specification which it would be appreciated if you could provide a response to by Monday 9 January 2023 via the CTM Messaging System.

Please ensure you are Registered on the CTM eProcurement Portal ([uk.eu-supply.com](https://uk.eu-supply.com)), logged in and have expressed an interest before attempting to download the document. Registration is free.
