II.2.4) Description of the procurement

Provide routine, Cleanse and Append and Residency Validation Services.

Provide up to date market innovation in the Cleanse and Append and Residency Validation area to enable continuously improving processing of data to optimise results.

- The processing of residential records to validate and improve the accuracy of core customer data. For individuals this includes correcting customer's names, addresses, dates of birth, and contact information.
- Address matching using the providers own data sources to validate the customer address
- Return of enriched data for processing to the billing system to update customer accounts.
- Other applicable Cleanse and Append Services

Cleanse and Append General Assumptions

- Only domestic customers will be included in the data cleanse and append activities
- Only name and date of birth will be cleansed via the one off / cyclical cleanse and append solution
- We may require the de-duplicating of records in the processing
- Both 'Primary' and 'Associate' customers flagged as 'show on bill' will be subject to cleanse and append activities
- To mitigate any adverse customer service impacts as a result of enrichment to UUW core data supplier's solutions must include sufficient logic to determine high confidence matches.
- Supplier solutions need to be configurable to reflect any specific UUW business rules where data conflicts may be presented as a result of matching routines
