Income Generation from Estates and Assets

Reference number

RM6349

II.1.2) Main CPV code

- 79341000 - Advertising services

II.1.3) Type of contract

Services

II.1.4) Short description

Crown Commercial Service as the authority was seeking to put in place a new pan-government collaborative agreement for the provision of income generation from commercial advertising, experiential advertising and end to end car parking management.

This agreement has been used by Central Government Departments, their agencies, (including publicly owned transport organisations), Non Departmental Public Bodies, and all other UK Public Sector bodies, including local authorities, health, education providers, devolved administrations and charities.

The agreement enabled government and public sector bodies to run mini competitions to establish contracts with:

- media owners to manage, promote and maximise value across their advertising space for a specified number of years.
- experiential sampling and events specialists
- car parking service providers to manage parking spaces, car parking assets and payments for a specified number of years.

This commercial agreement has become the preferred route for public sector and government bodies to generate income from commercial advertising, experiential advertising and end to end car parking management.

The framework has been split into five lots as below:

Lot 1 - Internal commercial advertising - static, digital, large and small format

Lot 2 - External commercial advertising - static, digital, large and small format

Lot 3 - Commercial Experiential Advertising - exhibitions, sampling and promotions

Lot 4 - Commercial Advertising - Combined Lots 1, 2 & 3

Lot 5 - End to End Car Parking Management

3) Approved Customer list

4) Transparency Agenda

On 02/04/2014, Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement. This link provides information on the GSC at: <https://www.gov.uk/government/publications/government-security-classifications>

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.

VI.4) Procedures for review

VI.4.1) Review body
