Section I: Contracting authority

I.1) Name and addresses

NHS England

Leeds

Contact

Anna Salt

Email

anna.salt@nhs.net

Country

United Kingdom

Region code

UK - United Kingdom

Justification for not providing organisation identifier

Not on any register

Internet address(es)

Main address

<https://www.england.nhs.uk/>

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Health

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

DNA Repair Disorders Service

II.1.2) Main CPV code

- 85000000 - Health and social work services

II.1.3) Type of contract

Services

II.1.4) Short description

DNA nucleotide excision repair (DNA) disorders include xeroderma pigmentosa (XP), Cockayne syndrome (CS) and trichothiodystrophy (TTD). Xeroderma Pigmentosa (XP) service was commissioned as a HSS in 2010, the service specification was updated in 2018 to include the CS and TTD. These are rare inherited multi-organ disorders and patients have specific, complex and specialist needs. Although the underlying diseases are not curable, there is potential to significantly improve health and quality of life through a comprehensive, expert patient focused service. Many individuals with CS/TTD require photoprotection, have reduced mobility or are on supplemental feeds.

The conditions are complex to diagnose and treat, and require input from: dermatology, dermatological surgery, paediatric neurology, adult neurology, ophthalmology, neuropsychology, clinical genetics, paediatric dentistry, psychology, dietetics, endocrinology, optometry, medical photography, audiology and palliative care.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £7,186,475

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKI - London

II.2.4) Description of the procurement

DNA nucleotide excision repair (DNA) disorders include xeroderma pigmentosa (XP), Cockayne syndrome (CS) and trichothiodystrophy (TTD). Xeroderma Pigmentosa (XP) service was commissioned as a HSS in 2010, the service specification was updated in 2018 to include the CS and TTD. These are rare inherited multi-organ disorders and patients have specific, complex and specialist needs. Although the underlying diseases are not curable, there is potential to significantly improve health and quality of life through a comprehensive, expert patient focused service. Many individuals with CS/TTD require photoprotection, have reduced mobility or are on supplemental feeds. These circumstances can impact their ability to maintain optimal vitamin D levels. Therefore, regular vitamin D monitoring is important. are genetic conditions that are complex to diagnose and treat, and require input from: dermatology, dermatological surgery, paediatric neurology, adult neurology, ophthalmology, neuropsychology, clinical genetics, paediatric dentistry, psychology, dietetics, endocrinology, optometry, medical photography, audiology and palliative care.

An award has been made following direct award process A.

The service started on 1st April 2024 for a period of 3 years with an option to extend for a further 2 years.

The lifetime value of the contract is £7,186,475.00.
