## **Services for slide digitisation - multi-modal**

GENOMICS ENGLAND LIMITED

F02: Contract notice

Notice identifier: 2023/S 000-036027

Procurement identifier (OCID): ocds-h6vhtk-042248

Published 6 December 2023, 6:48pm

### **Section I: Contracting authority**

#### **I.1) Name and addresses**

GENOMICS ENGLAND LIMITED

One Canada Square

LONDON

E14 5AB

#### **Contact**

Procurement Team

#### **Email**

[supplier.engagement@genomicsengland.co.uk](mailto:supplier.engagement@genomicsengland.co.uk)

#### **Country**

United Kingdom

#### **Region code**

UKI - London

**Justification for not providing organisation identifier**

Partnership

**Internet address(es)**

Main address

[www.genomicsengland.co.uk](http://www.genomicsengland.co.uk)

**I.3) Communication**

The procurement documents are available for unrestricted and full direct access, free of charge, at

<https://public.bravosolution.co.uk/genomicsengland/web/login.html>

Additional information can be obtained from the above-mentioned address

Tenders or requests to participate must be submitted electronically via

<https://public.bravosolution.co.uk/genomicsengland/web/login.html>

Tenders or requests to participate must be submitted to the above-mentioned address

**I.4) Type of the contracting authority**

Body governed by public law

**I.5) Main activity**

Health

---

## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Services for slide digitisation - multi-modal

#### **II.1.2) Main CPV code**

- 85000000 - Health and social work services

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

Genomics England are looking for a provider to support in digitising all the histopathology slides from the participants of the 100,000 Genomes Project so they can be transferred to the multi-modal research environment.

The multi-modal project provides an enriched data set for cancer research by adding of imaging data from pathology slides and radiology images (e.g., x-ray, CT and MRI) alongside whole genome data.

The multi-modal project aims are:

- Complete the scanning and digitisation of the remaining 200,000 histopathology slides for the 100,000 Genomes Project participants.
- Make accessible to researchers a secure library of linked genomic, clinical and imaging cancer data accompanied with the tooling needed to accelerate the understanding of the morphological, genomic and clinical changes that occur in cancer.
- Lead the research community to generate new insights from the data to support diagnostic, prognostic and precision medicine discovery.

#### **II.1.5) Estimated total value**

Value excluding VAT: £2,250,000

#### **II.1.6) Information about lots**

This contract is divided into lots: No

## **II.2) Description**

### **II.2.3) Place of performance**

NUTS codes

- UKI - London

### **II.2.4) Description of the procurement**

The requirements include the following:

- To provide a high quality, clinical grade digital pathology service.
- The successful supplier must be of reputable standard with known clinical and academic standing and engagement with the Royal Collage of Pathologists (as this is a national digitisation programme).
- Ideally based within an NHS site to allow for receipt of identifiable information from participants and not require formal MTAs for movement of slides.
- Supplier must demonstrate secure storage for identifiable glass slides.
- Deployment team already established to perform similar process, at scale (expected volumes of 4000 slides per week).
- Clear protocol for handling and anonymisation of participant information and slides.
- Anonymise, scan and digitise 200,000 histopathology slides from solid cancer participants in the 100,000 Genomes Project over one year.
- Digitisation of slides must be performed at x40 magnification on Leica GT450 scanner, in line with previous configurations and analysis.
- Supplier will need to provide scanning of selected slides on a variety of scanners for variability.
- Digital images need to be of DICOM compatible format.
- Supplier will need to have logistics in place to digitise from CellNass directly.
- Transfer these digitised slides to the Genomic England's multi-modal research environment over IBM Aspera.
- Capability to receive and store histopathology slides.

- Capability to conduct quality control protocols and scan all slides.
- Capability to store and transfer image data.

#### **II.2.5) Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

#### **II.2.7) Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months

14

This contract is subject to renewal

No

#### **II.2.10) Information about variants**

Variants will be accepted: No

#### **II.2.11) Information about options**

Options: No

#### **II.2.14) Additional information**

If you have not already done so, you will need to register on our Bravo portal

<https://public.bravosolution.co.uk/genomicsengland/web/login.html>

Please register on the e-tendering portal (Bravo) on the link provided. Once registered, you can find the opportunity under project title Services for slide digitisation - multi-modal or the project reference "project\_867"

All correspondence should be sent via the portal.

## **Section III. Legal, economic, financial and technical information**

### **III.1) Conditions for participation**

#### **III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions

See tender documentation

#### **III.1.2) Economic and financial standing**

List and brief description of selection criteria

See tender documentation

Minimum level(s) of standards possibly required

See tender documentation

#### **III.1.3) Technical and professional ability**

List and brief description of selection criteria

See tender documentation

Minimum level(s) of standards possibly required

See tender documentation

### **III.2) Conditions related to the contract**

#### **III.2.2) Contract performance conditions**

See tender documentation

---

## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.1) Type of procedure**

Open procedure

Accelerated procedure

**Justification:**

The accelerated procedure has been used due to the urgent nature of requirements, the normal time limits are rendered impractical. Genomics England also has a responsibility to manage the wider operational and delivery risk of not being able to secure this services in a timely manner.

Under the Public Contracts Regulations (PCR), authorities can reduce the minimum timescales for the open procedure, the restricted procedure and the competitive procedure with negotiation if a state of urgency renders the standard timescales impracticable. The minimum time limits vary. For procurements under the open procedure, timescales can be reduced to 15 days for receipt of tenders plus the minimum 10 days for the standstill period.

**IV.1.8) Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: Yes

**IV.2) Administrative information****IV.2.2) Time limit for receipt of tenders or requests to participate**

Date

22 December 2023

Local time

12:00pm

**IV.2.4) Languages in which tenders or requests to participate may be submitted**

English

**IV.2.7) Conditions for opening of tenders**

Date

2 January 2024

Local time

12:00pm

---

## **Section VI. Complementary information**

### **VI.1) Information about recurrence**

This is a recurrent procurement: No

### **VI.4) Procedures for review**

#### **VI.4.1) Review body**

Genomics England

London

Country

United Kingdom
