II.2.4) Description of the procurement

The managed service refers to the transfer of certain operational and administrative tasks that would otherwise be performed by the Participating Authority, from a Participating Authority to a third-party professional service provider in order for the

Participating Authority to achieve its additional capacity objectives ("Managed Service"). The service provider will have the contractual responsibility for the planning, deployment, delivery and management of the service, this may also include personnel and physical labour, equipment, systems and software, infrastructure and supplies, health and safety and administration and other associated services linked to the delivery and smooth

running of the managed service.

Prime Vendor and Subcontractor arrangements:

Tenderers bidding for this Lot are not mandated to supply every element of the requirements directly and can appoint subcontractors thus making the Tenderer a Prime Vendor. The Prime Vendor may appoint a subcontractor who has been awarded

to any of the Lots, mentioned above.

By appointing a subcontractor(s), the Prime Vendor accepts full responsibility of their subcontractor(s).

This Lot will only operate via mini competition process, service providers can compete and provide accurate bids for Participating Authorities bespoke requirements.

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

HTE will incorporate a standstill period at the point information on the award of the contract is communicated to tenderers. That notification will provide full information on the award decision. The standstill period, which will be for a minimum of 10 calendar days, provides time for unsuccessful tenderers to challenge the award decision before the contract is entered into.
