Lot 1- Major Works. It is expected that 7 consultants may be appointed to this Lot. A consultant will be appointed, following a secondary tender competition to take forward each major construction related project with estimated values, typically between £4.4 and £30M, albeit there is no upper or lower limit. The scope of services will typically commence at RIBA Stage 0; (the Client's initial statement of requirements) through strategic assessment and business justification and outline design stage, to completion of the works; RIBA Stage 7. However, depending on the needs of the Client, the Consultant could be appointed at any intermediate stage. ICTs will be required to apply Building Information Modelling (BIM) in the Provision of Services. Typically, the ICT will be required to work with the Client to establish its requirements and develop an exemplar design to enable competition between contractor led Integrated Supply Teams (ISTs) (consisting of contractors, specialist sub-contractors, designers and their supply chains) appointed separately by the Client using the services of the ICT. Detailed design and construction will typically be undertaken by the IST, but the ICT may also be required to undertake all design.. After the IST is appointed, the ICT will manage the Works Project and provide. multi-discipline professional advice to the Client as necessary to ensure the detailed design and construction fully meets the Client's requirements in terms of quality, cost and programme.

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

Precise information on deadline(s) for review procedures: This procurement is governed by the Public Contracts Regulations 2015 and provides for economic operators who have suffered, or who risk suffering, loss, or damage, as a consequence of an alleged breach of the duty owed in accordance with Regulation 91 to start proceedings in the High Court. A standstill period will commence at the point information on the award of the contract is communicated to tenderers. That notification will provide information on the award decision. The standstill period, which will be for a minimum of 10 calendar days, provides time for unsuccessful tenderers to challenge the award decision before the contract is entered into. Any proceedings relating to any perceived non-compliance with the relevant law must be started within 30 days, beginning with the date when the economic operator first knew, or ought to have known that grounds for starting the proceedings had arisen. (A court may extend the time limit to 3 months, where the court considers that there is a good reason for doing so).
