II.1.3) Type of contract

Services

II.1.4) Short description

Lot 1 - 3D Modelling Services

This lot includes the creation of 3D models of communal areas, external topographic survey, building landscape, residential units or individual asset components.

Lot 2 - COBie asset data

This lot includes the production and population of a REVIT model to produce a COBie file export for upload into A2D's asset management system in alignment with A2D naming convention for spaces and type. The COBie files will be updated to the REVIT models so that REVIT becomes the master source capable of exporting a correctly formatted COBie file.

Lot 3 - 3D Modelling and COBie

This lot is a combination of Lots 1 and 2, where a single supplier creates the REVIT model, produces the COBie files, compiles the relevant data and updates the REVIT model with all the asset data.

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots

II.2.4) Description of the procurement

A2Dominion is embarking on a project to populate component asset data within an asset management system for circa 60 18m+ high rise buildings. The buildings are the legacy estate and represent a retrospective production of data models.

REVIT models, enriched by the Consultant, with information supplied by A2Dominion produce a COBie export which can be loaded into A2Dominion's asset management system.

The REVIT model / COBie export shall make use of an A2D standardised space and type

naming schema so that there is consistency across suppliers and buildings. Zones within COBie will utilise a UPRN naming schema.
