Section II: Object

II.1) Scope of the procurement

II.1.1) Title

IT Cabling and Hardware

II.1.2) Main CPV code

- 51000000 - Installation services (except software)

II.1.3) Type of contract

Services

II.1.4) Short description

The objective of this Procurement Process is to provide a required range of network infrastructure goods and services to Yorkshire Water (YW). This includes activities such as installation, moves, refurbishment and on-site troubleshooting. The requirement is essentially about on-site activities that range from main offices, remote treatment works and telemetry outstations.

The duration of the proposed contract opportunity is 36 months, with the potential for an optional renewal of 24 months.

Suppliers can submit for as many bids as they wish.

For access to the Ariba event and full information, including the Selection Questionnaire that we would request each interested party to submit as an expression of their interest, please reach out to Chiara Soldati at chiara.soldati@yorkshirewater.co.uk by the specified deadline of this notice.

II.1.5) Estimated total value

Value excluding VAT: £2,057,930

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 30200000 - Computer equipment and supplies
- 45314300 - Installation of cable infrastructure
- 45314310 - Installation of cable laying
- 45314320 - Installation of computer cabling

- 48821000 - Network servers
- 48822000 - Computer servers
- 51100000 - Installation services of electrical and mechanical equipment
- 51300000 - Installation services of communications equipment
- 51600000 - Installation services of computers and office equipment
- 51900000 - Installation services of guidance and control systems

II.2.3) Place of performance

NUTS codes

- UKE - Yorkshire and the Humber

II.2.4) Description of the procurement

Infrastructure management: Moves, additions, changes and ad-hoc cabling requirements. Working with YWS in the planning and scheduling of office moves, additions and changes. These are planned with key stakeholders such as users, facilities and IT departments with most the work being carried out in the evening or at weekends

Provision of wireless, environmental and security solutions: Providing design, installation and support functionality, following the Technical Design Reference Manual and Engineering Specifications, across key technology areas such as wireless, environmental, computer room and security solutions as approved by and in agreement with YW.

Project Management & Ad-Hoc Services: Provide bespoke project management within and outside of the scope of the framework delivery. Ability to respond to service adjacent activities if required.

Server Provisioning: Manage the server point to point patching requirements for servers at the YWS data centres and computer rooms

Cable Management - Data centra and remote site cabinets, install and tidy.

Incident Escalation - Act as remote hands and eyes for troubleshooting purposes.

Examples of work:

Comms Room, construction and Fitout.

Audio-visual rooms: Installation of ceiling microphones, speakers, industrial TVs, and

Crestron systems. Interface units are connected to Microsoft Teams to facilitate Teams calls, with room configuration optimized for the best equipment placement.

Structured Cabling Data Systems, both RJ45 based and 110 systems.

Low voltage electrical systems and issue NICEIC Certificates.

IP, ACD and analogue voice cabling systems.
